LIST OF APPENDICES

A. SEQR COORDINATION

- 1) SEQR RESOLUTIONS
- 2) FULL ENVIRONMENTAL ASSESSMENT FORM (EAF) PARTS 1-3
- 3) SUPPORTING INFORMATION TO THE FULL EAF PART II
- 4) LEAD AGENCY COORDINATION - INVOLVED & INTERESTED AGENCIES
- 5) NEGATIVE DECLARATION AND ENB PUBLICATION

B. NEPA FORMS

- 1) FORM 2-1 - DESIGNATING OF CERTIFYING OFFICER & ENVIRONMENTAL RESPONSIBILITY CERTIFICATION
- 2) FORM 2-3 – CERTIFICATION OF NEPA CLASSIFICATION
- 3) FORM 2-3A – CERTIFICATION OF SEQRA CLASSIFICATION
- 4) FORM 2-4 – NEPA CLASSIFICATION CHECKLIST
- 5) FORM 2-5 – STATUTORY CHECKLIST (ENVIRONMENTAL REVIEW FOR ACTIVITY/ PROJECT THAT IS CATEGORICALLY EXCLUDED SUBJECT TO SECTION 58.5 PURSUANT TO 24 CFR 58.35(A))
- 6) FORM 1-3 – REQUEST FOR RELEASE OF FUNDS FORM AND CERTIFICATION
- 7) NOTICE OF INTENT TO REQUEST RELEASE OF FUNDS

C. CORRESPONDENCES & COORDINATION

- 1) STATE HISTORIC PRESERVATION OFFICE (SHPO)
- 2) NYS AGRICULTURE & MARKETS
- 3) U.S. ARMY CORPS OF ENGINEERS, DEPARTMENT OF ARMY
- 4) NYS DEPARTMENT OF ENVIRONMENTAL CONSERVATION, REGION 8
- 5) NYS DEPARTMENT OF ENVIRONMENTAL CONSERVATION - NATURAL HERITAGE
- 6) U.S. DEPARTMENT OF INTERIOR – FISH AND WILDLIFE SERVICE
- 7) USDA - NATURAL RESOURCES CONSERVATION SERVICE
- 8) REGIONAL INTERGOVERNMENTAL CLEARINGHOUSE
- 9) NATIVE AMERICAN TRIBES CONSULTATION LETTERS
- 10) EARLY NOTICE & PUBLIC REVIEW OF PROPOSED ACTIVITY LOCATED IN A 100-YEAR FLOODPLAIN
- 11) FINAL NOTICE & PUBLIC REVIEW OF PROPOSED ACTIVITY LOCATED IN A 100-YEAR FLOODPLAIN

D. MAPS

- 1) PROJECT LOCATION MAPS
- 2) PROPOSED SITE PLAN
- 3) USGS TOPO MAPS
- 4) FEMA FLOOD INSURANCE RATE MAPS
- 5) FEDERAL FRESHWATER WETLANDS MAP
- 6) NYS FRESHWATER WETLANDS MAP
- 7) ARCHEOLOGICAL SENSITIVITY AREA MAP (SHPO)
- 8) AGRICULTURAL DISTRICTS MAP - ALLEGANY COUNTY
- 9) SOIL SURVEY MAP & REPORT
- 10) INDIAN NATIONS AREAS OF INTEREST MAP
- 11) ADIRONDACK STATE PARK LOCATION MAP
- 12) U.S. EPA – SOLE SOURCE AQUIFERS
- 13) COASTAL ZONE AREA MAP

E. MISCELLANEOUS

- 1) NYSDEC LIST OF WILD, SCENIC AND RECREATIONAL RIVERS & CRITICAL ENVIRONMENTAL AREAS

I. PURPOSE AND NEED FOR THE PROPOSAL

A. PROJECT DESCRIPTION (PROPOSED ACTION)

The Village of Wellsville Wastewater Treatment Plant (WWTP) is located off Bolivar Road on the west side of the Genesee River in the Village of Wellsville. The WWTP takes and treats wastewater from within the Village of Wellsville, special districts within the Town of Wellsville as well as outside sources including but not limited to leachate from area landfills. The WWTP accepts leachate from the Allegany County Landfill, the Hyland Facility in Angelica NY and from the Village of Wellsville. The WWTP started operations in 1937. Over the years the plant has seen numerous upgrades and expansions.

The Village of Wellsville has evaluated the need for improvements at the existing WWTP to address recent changes to its State Pollution Discharge Elimination System (SPDES) permit, specifically a new effluent Ammonia limit. The current changes to the SPDES permit have a direct effect on the amount of leachate that the WWTP can adequately treat and therefore accept.

In addition, certain existing plant components are insufficient in capacity to meet design flows and loads. Improvements to the WWTP are necessary to support development both inside and outside of the Village, as well as to continue to accept landfill leachate. Addressing these concerns will also have an improvement on the treatment efficiency of the plant, as the full capacity of existing unit processes will be better utilized.

PROPOSED DESIGN CONDITION

The proposed design incorporates the following improvements:

- New Influent screening facility (including mechanical equipment) and mechanical grit removal system improvements.
- Upgrade the existing rock media trickling filters with crossflow plastic media in proposed biotowers as the existing media has reached the end of its useful service life.
- Provide new hydraulic distributors and arms with motorized units for the biotowers.

- Provide new recirculation pumps designed to meet the recommended wetting rates of new plastic media. Existing piping and valves will be replaced in-kind to replace this aging infrastructure.
- Provide geodesic dome covers for the biotowers with mechanical venting. This will vastly improve the operation of this treatment process and minimize maintenance of this treatment process.
- Construction of a new leachate storage tank with an operational storage volume of 75,000 gallons.
- Incorporation of a new chlorination/dechlorination treatment process and chemical storage facility. Improvements include new tankage, chemical equipment (piping, pumps, storage tanks, etc.), process piping, site piping and other appurtenances required for an overall chemical disinfection process.
- Construction of a new final clarifier (tankage and mechanicals) and replacement of the three (3) existing clarifier mechanicals. The existing sludge pumping systems will be replaced in kind.
- Replacement of the existing belt filter press with a new mechanical belt filter press.
- Replacement of existing anaerobic digester covers and ancillary sludge mixing equipment.
- An overall WWTP SCADA System to allow for monitoring and control of various equipment components.
- Sanitary sewer collection system improvements to mitigate Inflow and Infiltration (I&I).

B. PURPOSE AND NEED OF THE PROPOSAL

The existing Village of Wellsville WWTP is continuing to operate and meet the existing permitted effluent limits. However, the majority of the existing infrastructure is original to the 1972 WWTP Improvement Project and has reached the end of its useful service life. In addition, the Village SPDES permit has been modified with more stringent effluent limits that require these improvements.

Additionally, the imposition of more stringent effluent ammonia limit impacts the amount of leachate the WWTP can process. The recommended improvements are necessary to ensure continued compliance with the Village SPDES permit. If no improvements are undertaken, the Village will be severely limited in the amount of leachate they can process. Implementing the capital improvements will provide additional capacity for acceptance and treatment of leachate.

The Village of Wellsville has evaluated the need to upgrade the existing WWTP to address the following issues:

- Recent modifications to the SPDES permit to include Ammonia limits
- Evaluating the capacity of the existing trickling filters and their ability to treat BOD and NH₃ (Ammonia) with the existing rock media and with proposed plastic high rate filter media.
- Evaluating the feasibility and benefits of adding covers to the Trickling filters.
- Determining the amount of leachate the existing WWTP can take without exceeding the biological capacity of the plant.
- Determining the amount of leachate the WWTP can take if the trickling filters were upgraded, and evaluate options for the storage and discharge of the leachate.
- Analyze plant process components with respect to capacity and service life
- Provide cost estimates for recommended upgrades

II. ALTERNATIVES TO THE PROPOSED PROJECT

DESCRIPTION

One alternative would be to do no improvements at this time and wait till flows or loadings increase to the point of nearing violation. Deferring necessary improvements is undesirable from a long-term financial perspective as these upgrades are expected to increase in cost over time due to inflation.

III. AFFECTED ENVIRONMENT/ENVIRONMENTAL CONSEQUENCES

A. LAND USE/IMPORTANT FARMLAND/FORMALLY CLASSIFIED LANDS

1. Affected Environment

Land use in and around the project area is predominately urban, commercial, and residential. Please note that all of construction will take place on the subject parcel and will not negatively affect the surrounding areas (see Appendix D, Map 1 – Site Plan). Also, NYS Agricultural and Markets and Natural Resources Conservation Service (NRCS) was contacted requesting comments regarding their review of this project (see Appendix C-2 & C-7).

2. Environmental Consequences

Since the subject property is not located within an Agricultural District, a Preliminary & Final Notice of Intent was not required. No agricultural lands should be affected during construction of this project (see Appendix D, Map 8).

3. Mitigation

N/A

B. FLOODPLAINS

1. Affected Environment

A Floodplain Map prepared by MRB Group is provided within Appendix D, Map 4 - FEMA Flood Insurance Rate Map. This map shows the Federal Emergency Management Agency (FEMA) Floodplains for the Village of Wellsville.

2. Environmental Consequences

A portion of the project will be constructed within a designated floodway and the 100 year floodplain. The project may be required to receive a Floodplain Development Permit.

3. Mitigation

Appropriate drainage measures will be installed during construction. The project will be designed to meet all NYS Department of Environmental

Conservation (NYSDEC) Phase II Stormwater and the latest General Permit requirements to assure that erosion and sedimentation are managed throughout the construction phase of the project and all water quality practices required are in place.

C. WETLANDS/STREAMS

1. Affected Environment

Mapping of wetland resources was taken from the U.S. Fish and Wildlife Service "National Wetlands Inventory" (see Appendix D, Map 5 & Map 6). According to the maps either Federal or State regulated wetlands are identified within the project area; however, mapping demonstrates that a stream is located adjacent to the project area.

2. Environmental Consequences

US Army Corp of Engineers (USACE) and New York State Department of Environmental Conservation (NYSDEC) were coordinated with as part of the SEQR coordination process (see Appendix A) and also contacted in letters dated February 7, 2017 requesting comments on the project. Comments were received from ACOE in a letter dated March 2, 2017 (see Appendix C-3) and received from NYSDEC in a letter dated January 5, 2017 (see Appendix C-4).

3. Mitigation

No work is proposed within the identified stream or banks of the stream. The proposed improvements will be located primarily on the project site and is not expected to negatively impact the identified stream. No permit from ACOE is expected.

D. HISTORIC PROPERTIES

1. Affected Environment

The New York State Office of Parks, Recreation and Historic Preservation (OPRHP) was contacted using the Cultural Resource Information System (CRIS). The proposed project is not located within a mapped archeological sensitive area (see Appendix D, Map 7). A response has been provided by SHPO dated

January 6, 2017 stating that this project will have no impact on archaeological and/or historic resources.

2. Environmental Consequences

N/A

3. Mitigation

N/A

E. BIOLOGICAL RESOURCES

1. Affected Environment

NYSDEC's Division of Fish, Wildlife & Marine Resources (DFWMR) New York Natural Heritage Program and U.S. Department of Interior Fish and Wildlife Service were consulted regarding the known presence of threatened or endangered species in the project area (see Appendix C-5 and C-6).

2. Environmental Consequences

U.S. Department of Interior, Fish and Wildlife Service has responded in a letter dated February 15, 2017 (see Appendix C-6). They have acknowledged receipt our determination letter dated February 7, 2017. A letter from NYSDEC's Division of Fish, Wildlife & Marine Resources (DFWMR) New York Natural Heritage Program was also received dated March 2, 2017 stating that no records of rare or state-listed animals or plants, or significant natural communities at the project site or in its immediate vicinity.

3. Mitigation

N/A

F. WATER QUALITY ISSUES

1. Affected Environment

The anticipated area of disturbance for the proposed project including overall site clearing limits is anticipated to be approximately 1.0 +/- acres of land. Portions of the project will be stripped of vegetation and bare soils will be

exposed for periods of time during construction. The site will be susceptible to potential erosion with the potential of discharge of sediment into the existing waterways.

2. Environmental Consequences

The project is anticipated to disturb more than 1 acre of land during construction, coverage under the latest SPDES General Permit, Notice of Intent, and Stormwater Pollution Prevention Plan (SWPPP) will be required to be prepared and forwarded to NYSDEC for review. The permit will address water quality impacts from disturbance of soils and potential erosion control provisions.

3. Mitigation

Negative impacts will be properly prevented or mitigated as a function of the project design and permitting process. Approved erosion and sediment control measures as outlined in the SWPPP will be implemented during construction. All erosion and sediment control measures will be designed and installed per the requirements set forth in the latest edition (2016) of the New York Standards and Specifications for Erosion and Sediment Control. Erosion and sediment control measures will be inspected to ensure proper installation and function throughout the construction project.

G. COASTAL RESOURCES

1. Affected Environment

There are no coastal resources within the vicinity of the project area.

2. Environmental Consequences

N/A

3. Mitigation

N/A

H. SOCIO-ECONOMIC/ENVIRONMENTAL JUSTICE

1. Affected Environment

The proposed action will benefit all residential properties within the project service area.

2. Environmental Consequences

N/A

3. Mitigation

N/A

I. MISCELLANEOUS ISSUES

1. Air Quality

During construction, air quality will be temporarily affected due to the exhaust from construction equipment and fugitive dust from excavations. These affects are typical for the proposed type of construction and will be controlled by conventional means. No long-term adverse impacts on air quality are anticipated by the proposed project.

2. Transportation

During construction some detours may need to be implemented; however, these impacts will be small to moderate and would be temporary in nature. Proper signage to help direct traffic and pedestrians safely around the construction zones will be provided.

3. Noise

There will be temporary increases in the noise levels during construction. The duration will be confined to periods of construction activity (i.e., daytime when contractors are on site). No permanent increase in noise level will occur.

IV. SUMMARY OF MITIGATION

As a result of the State Environmental Quality review (SEQR) process and through review of the Environmental Report the proposed project will result in no significant adverse impacts on the environment. A Negative Declaration was issued by the Village Board dated January 16, 2017 (see attached Appendix A – SEQR).

APPENDIX A

SEQR COORDINATION

- State Environmental Quality Review Act (SEQR) – Village of Wellsville Village Board of Trustees SEQR Resolutions:
 - *Declaring Intent to Be Lead Agency* - Resolution No. 17-10
 - *Designating Lead Agency* – Resolution No. 17-14

RESOLUTION NO. #17-10 OF THE VILLAGE BOARD OF TRUSTEES

SEQR RESOLUTION DECLARING THE INTENT TO BE LEAD AGENCY ON THE WASTEWATER TREATMENT PLANT IMPROVEMENT PROJECT

At a regular meeting of the Board of Trustees of the Village of Wellsville, New York held on December 12, 2016, the following resolution was adopted:

WHEREAS, the Village of Wellsville Village Board of Trustees (hereinafter referred to as Village Board) has reviewed the SEQR Full Environmental Assessment Form (EAF) Part 1, prepared by the MRB Group (hereinafter referred to as Village Engineer) on the above referenced Village of Wellsville Wastewater Treatment Plant Improvement Project (hereinafter referred to as Action); and

WHEREAS, the Village Board determines that said Action is classified as an Unlisted Action under the State Environmental Quality Review (SEQR) Regulations; and

WHEREAS, the Village Board determines that said Action is also subject to review and approval by other involved agencies under SEQR Regulations; and

WHEREAS, the Village Board determines that it is the most appropriate agency to insure the coordination of this Action and will provide written notifications to involved agencies, for the purposes of conducting a coordinated review and making the determination of significance thereon under the SEQR Regulations.

NOW, THEREFORE BE IT RESOLVED that the Village Board does hereby declare its intent to be designated as the lead agency for the Action.

BE IT FURTHER RESOLVED, that the Village Engineer is directed to provide notice hereof to the involved and interested agencies, seeking their agreement (or objection thereto) in writing on or before noon on **Monday, January 16, 2017**.

Dated: December 12, 2016; this resolution shall take effect immediately.

“This institution is an equal opportunity provider, and employer. To file a complaint of discrimination, write: USDA, Director, Office of Civil Rights, 1400 Independence Avenue, S.W., Washington, D.C. 20250-9410, or call (800) 795-3272(voice) or (202) 720-6382(TDD).”

Moved by Trustee Herman, seconded by Trustee Ketchner.

The foregoing resolution was adopted by the Board of Trustees of the Village of Wellsville by roll call:

Trustee Cole	<u>Aye</u>	Trustee Fahs	<u>Aye</u>
Trustee Herman	<u>Aye</u>	Trustee Ketchner	<u>Aye</u>
Mayor Shayler	<u>Aye</u>		

I, Kathy Kinder, do hereby certify that resolution #17.10 was passed at a meeting of the Board of Trustees of the Village of Wellsville, New York held on December 12, 2016, and is incorporated in the original minutes of that said meeting, and that said resolution has not been altered, amended or revoked and is in full force and effect.

RESOLUTION NO. #17-14 OF THE VILLAGE BOARD OF TRUSTEES

SEQR RESOLUTION DESIGNATING LEAD AGENCY

WHEREAS, the Village of Wellsville Village Board of Trustees (hereinafter referred to as Village Board) on Monday, December 12, 2016 declared its intent to be designated the Lead Agency for the Village of Wellsville Wastewater Treatment Plant Improvement Project under the provisions of the State Environmental Quality Review (SEQR) Regulations; and

WHEREAS, the Village Board has provided written notices to this effect to the involved and interested agencies; and

WHEREAS, the Village Board has not received any written objections from the involved agencies to the Board's being designated as the lead agency under the SEQR Regulations; and

WHEREAS, the Village Board has previously determined that it is the most appropriate agency to insure the coordination of this Action and for making the determination of significance thereon under the SEQR Regulations.

NOW, THEREFORE BE IT RESOLVED that the Village Board does hereby designate itself as the lead agency for the Action identified above herein;

Dated: January 16, 2017; this resolution shall take effect immediately.

Moved by Trustee Herman, seconded by Trustee Ketchner.

The foregoing resolution was adopted by the Board of Trustees of the Village of Wellsville by roll call:

Trustee Cole	<u>Aye</u>	Trustee Fahs	<u>Aye</u>
Trustee Herman	<u>Aye</u>	Trustee Ketchner	<u>Aye</u>
Mayor Shayler	<u>Aye</u>		

I, Kathy Kinder, do hereby certify that resolution #17-14 was passed at a meeting of the Board of Trustees of the Village of Wellsville, New York held on January 16, 2017, and is incorporated in the original minutes of that said meeting, and that said resolution has not been altered, amended or revoked and is in full force and effect.

RESOLUTION NO. #17-15 OF THE VILLAGE BOARD OF TRUSTEES

SEQR RESOLUTION DETERMINATION OF ENVIRONMENTAL SIGNIFICANCE

WHEREAS, the Village of Wellsville Village Board of Trustees (hereinafter referred to as Village Board) has determined the above referenced Action to be an Unlisted Action pursuant to Part 617 of the State Environmental Quality Review (SEQR) Regulations; and

WHEREAS, the Village Board has reviewed and accepted the completed Full Environmental Assessment Form Parts 1, 2, and 3 on the Action prepared by the MRB Group; and

WHEREAS, the Village Board has completed the coordinated review and public comment period provided for under the SEQR Regulations; and

WHEREAS, the Village Board has designated itself as lead agency under the SEQR Regulations for making the determination of significance upon said action; and

WHEREAS, the Village Board has given consideration to the criteria for determining significance as set forth in Section 617.7(c) (1) of the SEQR Regulations and the information contained in Full Environmental Assessment Form Parts 1, 2, and 3.

NOW THEREFORE BE IT RESOLVED, that said Action **WILL NOT** result in any significant adverse environmental impacts based on the review of the Full Environmental Assessment Form; and

BE IT FINALLY RESOLVED that the Village Board does hereby make a Determination of Non-Significance on said Action, and the Mayor is hereby directed issue the Negative Declaration as evidence of the Village Board determination of environmental non-significance.

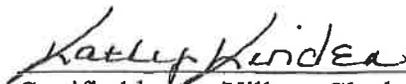

Dated: January 16, 2017; this resolution shall take effect immediately.

Moved by Trustee Herman, seconded by Trustee Cole.

The foregoing resolution was adopted by the Board of Trustees of the Village of Wellsville by roll call:

Trustee Cole	<u>Aye</u>	Trustee Fahs	<u>Aye</u>
Trustee Herman	<u>Aye</u>	Trustee Ketchner	<u>Aye</u>
Mayor Shayler	<u>Aye</u>		

I, Kathy Kinder, do hereby certify that resolution #17-15 was passed at a meeting of the Board of Trustees of the Village of Wellsville, New York held on January 16, 2017, and is incorporated in the original minutes of that said meeting, and that said resolution has not been altered, amended or revoked and is in full force and effect.

**Full Environmental Assessment Form
Part 1 - Project and Setting**

Instructions for Completing Part 1

Part 1 is to be completed by the applicant or project sponsor. Responses become part of the application for approval or funding, are subject to public review, and may be subject to further verification.

Complete Part 1 based on information currently available. If additional research or investigation would be needed to fully respond to any item, please answer as thoroughly as possible based on current information; indicate whether missing information does not exist, or is not reasonably available to the sponsor; and, when possible, generally describe work or studies which would be necessary to update or fully develop that information.

Applicants/sponsors must complete all items in Sections A & B. In Sections C, D & E, most items contain an initial question that must be answered either "Yes" or "No". If the answer to the initial question is "Yes", complete the sub-questions that follow. If the answer to the initial question is "No", proceed to the next question. Section F allows the project sponsor to identify and attach any additional information. Section G requires the name and signature of the project sponsor to verify that the information contained in Part 1 is accurate and complete.

A. Project and Sponsor Information.

Name of Action or Project: Village of Wellsville Wastewater Treatment Improvement Project		
Project Location (describe, and attach a general location map): 200 Bolivar Road, Wellsville, New York		
Brief Description of Proposed Action (include purpose or need): The project includes improvements to the existing Wastewater Treatment Plant (WWTP) to address recent changes to its State Pollution Discharge Elimination System (SPDES) permit. The WWTP currently treats influent flow from the Village and accepts and processes leachate from local landfills. The current changes to the SPDES permit have a direct effect on the capacity of the WWTP and its ability to treat the combined domestic and leachate loading. The project improvements will help upgrade the WWTP to provide more effective and efficient treatment capabilities to treat present and future flows and loadings from both wastewater sources. The project includes: replacing trickling filter media and equipment, replacing recirculation pumps and systems, installation of trickling filter covers, construction of a new leachate storage and discharge facility, inflow and infiltration improvements, new influent screen, new effluent disinfection system, final clarifier improvements, solids de-watering improvements, new SCADA system, and other minor and ancillary improvements associated with upgrading the upgrading the WWTP.		
Name of Applicant/Sponsor: Village of Wellsville / Mayor Randy Shayler	Telephone: 585.596.1750	E-Mail: mayorshayler@wellsvilleny.com
Address: P.O. Box 591		
City/PO: Wellsville	State: NY	Zip Code: 14895
Project Contact (if not same as sponsor; give name and title/role): William Whitfield / Director of DPW	Telephone: 585.596.1700	E-Mail: bill_whitfield@wellsvilleny.com
Address: P.O. Box 591		
City/PO: Wellsville	State: NY	Zip Code: 14895
Property Owner (if not same as sponsor):	Telephone:	E-Mail:

City/PO:	State:	Zip Code:

B. Government Approvals

B. Government Approvals, Funding, or Sponsorship. (“Funding” includes grants, loans, tax relief, and any other forms of financial assistance.)

Government Entity	If Yes: Identify Agency and Approval(s) Required	Application Date (Actual or projected)
a. City Council, Town Board, <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No or Village Board of Trustees	Village Board Board of Trustees	
b. City, Town or Village Planning Board or Commission <input type="checkbox"/> Yes <input type="checkbox"/> No		
c. City Council, Town or Village Zoning Board of Appeals <input type="checkbox"/> Yes <input type="checkbox"/> No		
d. Other local agencies <input type="checkbox"/> Yes <input type="checkbox"/> No		
e. County agencies <input type="checkbox"/> Yes <input type="checkbox"/> No		
f. Regional agencies <input type="checkbox"/> Yes <input type="checkbox"/> No		
g. State agencies <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No	NYSDEC	
h. Federal agencies <input type="checkbox"/> Yes <input type="checkbox"/> No		
i. Coastal Resources. i. Is the project site within a Coastal Area, or the waterfront area of a Designated Inland Waterway? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No ii. Is the project site located in a community with an approved Local Waterfront Revitalization Program? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No iii. Is the project site within a Coastal Erosion Hazard Area? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No		

C. Planning and Zoning

C.1. Planning and zoning actions.

Will administrative or legislative adoption, or amendment of a plan, local law, ordinance, rule or regulation be the only approval(s) which must be granted to enable the proposed action to proceed? Yes No

- If Yes, complete sections C, F and G.
- If No, proceed to question C.2 and complete all remaining sections and questions in Part 1

C.2. Adopted land use plans.

a. Do any municipally- adopted (city, town, village or county) comprehensive land use plan(s) include the site where the proposed action would be located? Yes No

If Yes, does the comprehensive plan include specific recommendations for the site where the proposed action would be located? Yes No

b. Is the site of the proposed action within any local or regional special planning district (for example: Greenway Brownfield Opportunity Area (BOA); designated State or Federal heritage area; watershed management plan; or other?) Yes No

If Yes, identify the plan(s):

c. Is the proposed action located wholly or partially within an area listed in an adopted municipal open space plan, or an adopted municipal farmland protection plan? Yes No

If Yes, identify the plan(s):

C.3. Zoning

a. Is the site of the proposed action located in a municipality with an adopted zoning law or ordinance. Yes No
If Yes, what is the zoning classification(s) including any applicable overlay district?

MBD

b. Is the use permitted or allowed by a special or conditional use permit? Yes No

c. Is a zoning change requested as part of the proposed action? Yes No

If Yes,

i. What is the proposed new zoning for the site? _____

C.4. Existing community services.

a. In what school district is the project site located? Wellsville Central School District

b. What police or other public protection forces serve the project site?
Wellsville Police Department, Allegany County Sheriff's Office

c. Which fire protection and emergency medical services serve the project site?
Wellsville Volunteer Fire Department

d. What parks serve the project site?
No parks serve the project, since the project site is a municipally owned treatment plant

D. Project Details

D.1. Proposed and Potential Development

a. What is the general nature of the proposed action (e.g., residential, industrial, commercial, recreational; if mixed, include all components)? Municipal

b. a. Total acreage of the site of the proposed action? _____ acres

b. Total acreage to be physically disturbed? _____ acres

c. Total acreage (project site and any contiguous properties) owned or controlled by the applicant or project sponsor? _____ acres

c. Is the proposed action an expansion of an existing project or use? Yes No

i. If Yes, what is the approximate percentage of the proposed expansion and identify the units (e.g., acres, miles, housing units, square feet)? % _____ Units: _____

d. Is the proposed action a subdivision, or does it include a subdivision? Yes No

If Yes,

i. Purpose or type of subdivision? (e.g., residential, industrial, commercial; if mixed, specify types) _____

ii. Is a cluster/conservation layout proposed? Yes No

iii. Number of lots proposed? _____

iv. Minimum and maximum proposed lot sizes? Minimum _____ Maximum _____

e. Will proposed action be constructed in multiple phases? Yes No

i. If No, anticipated period of construction: _____ months

ii. If Yes:

• Total number of phases anticipated _____

• Anticipated commencement date of phase 1 (including demolition) _____ month _____ year

• Anticipated completion date of final phase _____ month _____ year

• Generally describe connections or relationships among phases, including any contingencies where progress of one phase may determine timing or duration of future phases: _____

f. Does the project include new residential uses? Yes No
 If Yes, show numbers of units proposed.

	<u>One Family</u>	<u>Two Family</u>	<u>Three Family</u>	<u>Multiple Family (four or more)</u>
Initial Phase	_____	_____	_____	_____
At completion	_____	_____	_____	_____
of all phases	_____	_____	_____	_____

g. Does the proposed action include new non-residential construction (including expansions)? Yes No
 If Yes,
 i. Total number of structures _____
 ii. Dimensions (in feet) of largest proposed structure: _____ height; _____ width; and _____ length
 iii. Approximate extent of building space to be heated or cooled: _____ square feet

h. Does the proposed action include construction or other activities that will result in the impoundment of any liquids, such as creation of a water supply, reservoir, pond, lake, waste lagoon or other storage? Yes No
 If Yes,
 i. Purpose of the impoundment: _____
 ii. If a water impoundment, the principal source of the water: Ground water Surface water streams Other specify: _____
 iii. If other than water, identify the type of impounded/contained liquids and their source. _____
 iv. Approximate size of the proposed impoundment. Volume: _____ million gallons; surface area: _____ acres
 v. Dimensions of the proposed dam or impounding structure: _____ height; _____ length
 vi. Construction method/materials for the proposed dam or impounding structure (e.g., earth fill, rock, wood, concrete): _____

D.2. Project Operations

a. Does the proposed action include any excavation, mining, or dredging, during construction, operations, or both? Yes No
 (Not including general site preparation, grading or installation of utilities or foundations where all excavated materials will remain onsite)
 If Yes:
 i. What is the purpose of the excavation or dredging? _____
 ii. How much material (including rock, earth, sediments, etc.) is proposed to be removed from the site?
 • Volume (specify tons or cubic yards): _____
 • Over what duration of time? _____
 iii. Describe nature and characteristics of materials to be excavated or dredged, and plans to use, manage or dispose of them. _____

 iv. Will there be onsite dewatering or processing of excavated materials? Yes No
 If yes, describe. _____

 v. What is the total area to be dredged or excavated? _____ acres
 vi. What is the maximum area to be worked at any one time? _____ acres
 vii. What would be the maximum depth of excavation or dredging? _____ feet
 viii. Will the excavation require blasting? Yes No
 ix. Summarize site reclamation goals and plan: _____

b. Would the proposed action cause or result in alteration of, increase or decrease in size of, or encroachment into any existing wetland, waterbody, shoreline, beach or adjacent area? Yes No
 If Yes:
 i. Identify the wetland or waterbody which would be affected (by name, water index number, wetland map number or geographic description): _____

ii. Describe how the proposed action would affect that waterbody or wetland, e.g. excavation, fill, placement of structures, or alteration of channels, banks and shorelines. Indicate extent of activities, alterations and additions in square feet or acres:

iii. Will proposed action cause or result in disturbance to bottom sediments? Yes No

If Yes, describe: _____

iv. Will proposed action cause or result in the destruction or removal of aquatic vegetation? Yes No

If Yes:

- acres of aquatic vegetation proposed to be removed: _____
- expected acreage of aquatic vegetation remaining after project completion: _____
- purpose of proposed removal (e.g. beach clearing, invasive species control, boat access): _____
- proposed method of plant removal: _____
- if chemical/herbicide treatment will be used, specify product(s): _____

v. Describe any proposed reclamation/mitigation following disturbance: _____

c. Will the proposed action use, or create a new demand for water? Yes No

If Yes:

i. Total anticipated water usage/demand per day: _____ gallons/day

ii. Will the proposed action obtain water from an existing public water supply? Yes No

If Yes:

- Name of district or service area: _____
- Does the existing public water supply have capacity to serve the proposal? Yes No
- Is the project site in the existing district? Yes No
- Is expansion of the district needed? Yes No
- Do existing lines serve the project site? Yes No

iii. Will line extension within an existing district be necessary to supply the project? Yes No

If Yes:

- Describe extensions or capacity expansions proposed to serve this project: _____
- Source(s) of supply for the district: _____

iv. Is a new water supply district or service area proposed to be formed to serve the project site? Yes No

If, Yes:

- Applicant/sponsor for new district: _____
- Date application submitted or anticipated: _____
- Proposed source(s) of supply for new district: _____

v. If a public water supply will not be used, describe plans to provide water supply for the project: _____

vi. If water supply will be from wells (public or private), maximum pumping capacity: _____ gallons/minute.

d. Will the proposed action generate liquid wastes? Yes No

If Yes:

i. Total anticipated liquid waste generation per day: _____ gallons/day

ii. Nature of liquid wastes to be generated (e.g., sanitary wastewater, industrial; if combination, describe all components and approximate volumes or proportions of each): _____

iii. Will the proposed action use any existing public wastewater treatment facilities? Yes No

If Yes:

- Name of wastewater treatment plant to be used: Wellsville Wastewater Treatment Plant
- Name of district: Village of Wellsville Sewer System
- Does the existing wastewater treatment plant have capacity to serve the project? Yes No
- Is the project site in the existing district? Yes No
- Is expansion of the district needed? Yes No

Yes No
 Yes No

• Do existing sewer lines serve the project site?
 • Will line extension within an existing district be necessary to serve the project?
 If Yes:
 • Describe extensions or capacity expansions proposed to serve this project: _____

iv. Will a new wastewater (sewage) treatment district be formed to serve the project site? Yes No
 If Yes:
 • Applicant/sponsor for new district: _____
 • Date application submitted or anticipated: _____
 • What is the receiving water for the wastewater discharge? _____

v. If public facilities will not be used, describe plans to provide wastewater treatment for the project, including specifying proposed receiving water (name and classification if surface discharge, or describe subsurface disposal plans):

vi. Describe any plans or designs to capture, recycle or reuse liquid waste: _____

e. Will the proposed action disturb more than one acre and create stormwater runoff, either from new point sources (i.e. ditches, pipes, swales, curbs, gutters or other concentrated flows of stormwater) or non-point source (i.e. sheet flow) during construction or post construction? Yes No
 If Yes:
 i. How much impervious surface will the project create in relation to total size of project parcel?
 _____ Square feet or _____ acres (impervious surface)
 _____ Square feet or _____ acres (parcel size)
 ii. Describe types of new point sources. _____

 iii. Where will the stormwater runoff be directed (i.e. on-site stormwater management facility/structures, adjacent properties, groundwater, on-site surface water or off-site surface waters)?

 • If to surface waters, identify receiving water bodies or wetlands: _____

 • Will stormwater runoff flow to adjacent properties? Yes No

iv. Does proposed plan minimize impervious surfaces, use pervious materials or collect and re-use stormwater? Yes No

f. Does the proposed action include, or will it use on-site, one or more sources of air emissions, including fuel combustion, waste incineration, or other processes or operations? Yes No
 If Yes, identify:
 i. Mobile sources during project operations (e.g., heavy equipment, fleet or delivery vehicles)
 During construction - heavy equipment and delivery vehicles _____
 ii. Stationary sources during construction (e.g., power generation, structural heating, batch plant, crushers)

 iii. Stationary sources during operations (e.g., process emissions, large boilers, electric generation)

g. Will any air emission sources named in D.2.f (above), require a NY State Air Registration, Air Facility Permit, or Federal Clean Air Act Title IV or Title V Permit? Yes No
 If Yes:
 i. Is the project site located in an Air quality non-attainment area? (Area routinely or periodically fails to meet ambient air quality standards for all or some parts of the year) Yes No
 ii. In addition to emissions as calculated in the application, the project will generate:
 • _____ Tons/year (short tons) of Carbon Dioxide (CO₂)
 • _____ Tons/year (short tons) of Nitrous Oxide (N₂O)
 • _____ Tons/year (short tons) of Perfluorocarbons (PFCs)
 • _____ Tons/year (short tons) of Sulfur Hexafluoride (SF₆)
 • _____ Tons/year (short tons) of Carbon Dioxide equivalent of Hydrofluorocarbons (HFCs)
 • _____ Tons/year (short tons) of Hazardous Air Pollutants (HAPs)

h. Will the proposed action generate or emit methane (including, but not limited to, sewage treatment plants, landfills, composting facilities)? Yes No

If Yes:

i. Estimate methane generation in tons/year (metric): _____

ii. Describe any methane capture, control or elimination measures included in project design (e.g., combustion to generate heat or electricity, flaring): _____

i. Will the proposed action result in the release of air pollutants from open-air operations or processes, such as quarry or landfill operations? Yes No

If Yes: Describe operations and nature of emissions (e.g., diesel exhaust, rock particulates/dust): _____

j. Will the proposed action result in a substantial increase in traffic above present levels or generate substantial new demand for transportation facilities or services? Yes No

If Yes:

i. When is the peak traffic expected (Check all that apply): Morning Evening Weekend
 Randomly between hours of _____ to _____.

ii. For commercial activities only, projected number of semi-trailer truck trips/day: _____

iii. Parking spaces: Existing _____ Proposed _____ Net increase/decrease _____

iv. Does the proposed action include any shared use parking? Yes No

v. If the proposed action includes any modification of existing roads, creation of new roads or change in existing access, describe: _____

vi. Are public/private transportation service(s) or facilities available within ½ mile of the proposed site? Yes No

vii. Will the proposed action include access to public transportation or accommodations for use of hybrid, electric or other alternative fueled vehicles? Yes No

viii. Will the proposed action include plans for pedestrian or bicycle accommodations for connections to existing pedestrian or bicycle routes? Yes No

k. Will the proposed action (for commercial or industrial projects only) generate new or additional demand for energy? Yes No

If Yes:

i. Estimate annual electricity demand during operation of the proposed action: _____

ii. Anticipated sources/suppliers of electricity for the project (e.g., on-site combustion, on-site renewable, via grid/local utility, or other): _____

iii. Will the proposed action require a new, or an upgrade to, an existing substation? Yes No

l. Hours of operation. Answer all items which apply.

i. During Construction:		ii. During Operations:	
• Monday - Friday:	_____ 7:00 - 5:00 PM _____	• Monday - Friday:	_____ 24 hrs/day _____
• Saturday:	_____ None _____	• Saturday:	_____ 24 hrs/day _____
• Sunday:	_____ None _____	• Sunday:	_____ 24 hrs/day _____
• Holidays:	_____ None _____	• Holidays:	_____ 24 hrs/day _____

m. Will the proposed action produce noise that will exceed existing ambient noise levels during construction, operation, or both? Yes No

If yes:

i. Provide details including sources, time of day and duration:
During construction hours, movement of construction equipment and minor earth work.

ii. Will proposed action remove existing natural barriers that could act as a noise barrier or screen? Yes No
Describe: _____

n. Will the proposed action have outdoor lighting? Yes No

If yes:

i. Describe source(s), location(s), height of fixture(s), direction/aim, and proximity to nearest occupied structures:
WWTP has existing lighting, however, no lighting is being proposed as part of the improvements

ii. Will proposed action remove existing natural barriers that could act as a light barrier or screen? Yes No
Describe: _____

o. Does the proposed action have the potential to produce odors for more than one hour per day? Yes No
If Yes, describe possible sources, potential frequency and duration of odor emissions, and proximity to nearest occupied structures: _____

p. Will the proposed action include any bulk storage of petroleum (combined capacity of over 1,100 gallons) or chemical products 185 gallons in above ground storage or any amount in underground storage? Yes No

If Yes:

i. Product(s) to be stored ferric chloride

ii. Volume(s) 7,500 per unit time 2 months (e.g., month, year)

iii. Generally describe proposed storage facilities:
Above ground poly-dual contained storage tanks

q. Will the proposed action (commercial, industrial and recreational projects only) use pesticides (i.e., herbicides, insecticides) during construction or operation? Yes No

If Yes:

i. Describe proposed treatment(s):

ii. Will the proposed action use Integrated Pest Management Practices? Yes No

r. Will the proposed action (commercial or industrial projects only) involve or require the management or disposal of solid waste (excluding hazardous materials)? Yes No

If Yes:

i. Describe any solid waste(s) to be generated during construction or operation of the facility:

- Construction: _____ tons per _____ (unit of time)
- Operation : _____ tons per _____ (unit of time)

ii. Describe any proposals for on-site minimization, recycling or reuse of materials to avoid disposal as solid waste:

- Construction: _____
- Operation: _____

iii. Proposed disposal methods/facilities for solid waste generated on-site:

- Construction: _____
- Operation: _____

s. Does the proposed action include construction or modification of a solid waste management facility? Yes No

If Yes:

i. Type of management or handling of waste proposed for the site (e.g., recycling or transfer station, composting, landfill, or other disposal activities): De-watering, hauling of sludge off-site (landfill)

ii. Anticipated rate of disposal/processing:

- 13 Tons/month, if transfer or other non-combustion/thermal treatment, or
- _____ Tons/hour, if combustion or thermal treatment

iii. If landfill, anticipated site life: 1-5 years

t. Will proposed action at the site involve the commercial generation, treatment, storage, or disposal of hazardous waste? Yes No

If Yes:

i. Name(s) of all hazardous wastes or constituents to be generated, handled or managed at facility: _____

ii. Generally describe processes or activities involving hazardous wastes or constituents: _____

iii. Specify amount to be handled or generated _____ tons/month

iv. Describe any proposals for on-site minimization, recycling or reuse of hazardous constituents: _____

v. Will any hazardous wastes be disposed at an existing offsite hazardous waste facility? Yes No

If Yes: provide name and location of facility: _____

If No: describe proposed management of any hazardous wastes which will not be sent to a hazardous waste facility: _____

E. Site and Setting of Proposed Action

E.1. Land uses on and surrounding the project site

a. Existing land uses.

i. Check all uses that occur on, adjoining and near the project site.

- Urban Industrial Commercial Residential (suburban) Rural (non-farm)
 Forest Agriculture Aquatic Other (specify): _____

ii. If mix of uses, generally describe: _____

b. Land uses and covertypes on the project site.

Land use or Covertypes	Current Acreage	Acreage After Project Completion	Change (Acres +/-)
• Roads, buildings, and other paved or impervious surfaces	6.10+/-	6.10+/-	0
• Forested	0	0	0
• Meadows, grasslands or brushlands (non-agricultural, including abandoned agricultural)	0	0	0
• Agricultural (includes active orchards, field, greenhouse etc.)	0	0	0
• Surface water features (lakes, ponds, streams, rivers, etc.)	0	0	0
• Wetlands (freshwater or tidal)	0	0	0
• Non-vegetated (bare rock, earth or fill)	0	0	0
• Other Describe: _____			

c. Is the project site presently used by members of the community for public recreation? Yes No
i. If Yes: explain: _____

d. Are there any facilities serving children, the elderly, people with disabilities (e.g., schools, hospitals, licensed day care centers, or group homes) within 1500 feet of the project site? Yes No
If Yes,
i. Identify Facilities: _____

e. Does the project site contain an existing dam? Yes No
If Yes:
i. Dimensions of the dam and impoundment:
• Dam height: _____ feet
• Dam length: _____ feet
• Surface area: _____ acres
• Volume impounded: _____ gallons OR acre-feet
ii. Dam's existing hazard classification: _____
iii. Provide date and summarize results of last inspection: _____

f. Has the project site ever been used as a municipal, commercial or industrial solid waste management facility, or does the project site adjoin property which is now, or was at one time, used as a solid waste management facility? Yes No
If Yes:
i. Has the facility been formally closed? Yes No
• If yes, cite sources/documentation: _____
ii. Describe the location of the project site relative to the boundaries of the solid waste management facility:
Located at 200 Bolivar Road within the Village and bordering the Village and Town lines, Bordered by the Genesee River to the northeast and Wellsville Country Club to the northwest.
iii. Describe any development constraints due to the prior solid waste activities: _____

g. Have hazardous wastes been generated, treated and/or disposed of at the site, or does the project site adjoin property which is now or was at one time used to commercially treat, store and/or dispose of hazardous waste? Yes No
If Yes:
i. Describe waste(s) handled and waste management activities, including approximate time when activities occurred: _____

h. Potential contamination history. Has there been a reported spill at the proposed project site, or have any remedial actions been conducted at or adjacent to the proposed site? Yes No
If Yes:
i. Is any portion of the site listed on the NYSDEC Spills Incidents database or Environmental Site Remediation database? Check all that apply: Yes No
 Yes – Spills Incidents database Provide DEC ID number(s): _____
 Yes – Environmental Site Remediation database Provide DEC ID number(s): _____
 Neither database
ii. If site has been subject of RCRA corrective activities, describe control measures: _____
iii. Is the project within 2000 feet of any site in the NYSDEC Environmental Site Remediation database? Yes No
If yes, provide DEC ID number(s): _____
iv. If yes to (i), (ii) or (iii) above, describe current status of site(s): _____

v. Is the project site subject to an institutional control limiting property uses? Yes No

- If yes, DEC site ID number: _____
- Describe the type of institutional control (e.g., deed restriction or easement): _____
- Describe any use limitations: _____
- Describe any engineering controls: _____
- Will the project affect the institutional or engineering controls in place? Yes No
- Explain: _____

E.2. Natural Resources On or Near Project Site

a. What is the average depth to bedrock on the project site? _____ 6-7 feet

b. Are there bedrock outcroppings on the project site? Yes No
 If Yes, what proportion of the site is comprised of bedrock outcroppings? _____ %

c. Predominant soil type(s) present on project site:

Middlebury silt loam	_____	60.8 %
Urban land	_____	39.2 %
	_____	%

d. What is the average depth to the water table on the project site? Average: _____ 2 feet

e. Drainage status of project site soils: Well Drained: _____ % of site
 Moderately Well Drained: _____ 100 % of site
 Poorly Drained: _____ % of site

f. Approximate proportion of proposed action site with slopes: 0-10%: _____ 100 % of site
 10-15%: _____ % of site
 15% or greater: _____ % of site

g. Are there any unique geologic features on the project site? Yes No
 If Yes, describe: _____

h. Surface water features.

i. Does any portion of the project site contain wetlands or other waterbodies (including streams, rivers, ponds or lakes)? Yes No

ii. Do any wetlands or other waterbodies adjoin the project site? Yes No
 If Yes to either *i* or *ii*, continue. If No, skip to E.2.i.

iii. Are any of the wetlands or waterbodies within or adjoining the project site regulated by any federal, state or local agency? Yes No

iv. For each identified regulated wetland and waterbody on the project site, provide the following information:

- Streams: Name 821-437.2, 821-5 _____ Classification C, C(T)
- Lakes or Ponds: Name _____ Classification _____
- Wetlands: Name Federal Waters, Federal Waters, Federal Waters,... _____ Approximate Size _____
- Wetland No. (if regulated by DEC) _____

v. Are any of the above water bodies listed in the most recent compilation of NYS water quality-impaired waterbodies? Yes No
 If yes, name of impaired water body/bodies and basis for listing as impaired: _____

i. Is the project site in a designated Floodway? Yes No

j. Is the project site in the 100 year Floodplain? Yes No

k. Is the project site in the 500 year Floodplain? Yes No

l. Is the project site located over, or immediately adjoining, a primary, principal or sole source aquifer? Yes No
 If Yes:
 i. Name of aquifer: Principal Aquifer _____

<p>m. Identify the predominant wildlife species that occupy or use the project site:</p> <p>Raccoons _____ Birds (variety) _____</p> <p>Squirrels _____ _____</p> <p>Chipmunks _____ _____</p>	
<p>n. Does the project site contain a designated significant natural community? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes:</p> <p style="margin-left: 20px;">i. Describe the habitat/community (composition, function, and basis for designation): _____</p> <p style="margin-left: 20px;">ii. Source(s) of description or evaluation: _____</p> <p style="margin-left: 20px;">iii. Extent of community/habitat:</p> <ul style="list-style-type: none"> • Currently: _____ acres • Following completion of project as proposed: _____ acres • Gain or loss (indicate + or -): _____ acres 	
<p>o. Does project site contain any species of plant or animal that is listed by the federal government or NYS as endangered or threatened, or does it contain any areas identified as habitat for an endangered or threatened species? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>	
<p>p. Does the project site contain any species of plant or animal that is listed by NYS as rare, or as a species of special concern? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p>	
<p>q. Is the project site or adjoining area currently used for hunting, trapping, fishing or shell fishing? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If yes, give a brief description of how the proposed action may affect that use: _____</p> <p>_____</p>	
<p>E.3. Designated Public Resources On or Near Project Site</p>	
<p>a. Is the project site, or any portion of it, located in a designated agricultural district certified pursuant to Agriculture and Markets Law, Article 25-AA, Section 303 and 304? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes, provide county plus district name/number: _____</p>	
<p>b. Are agricultural lands consisting of highly productive soils present? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p style="margin-left: 20px;">i. If Yes: acreage(s) on project site? _____</p> <p style="margin-left: 20px;">ii. Source(s) of soil rating(s): _____</p>	
<p>c. Does the project site contain all or part of, or is it substantially contiguous to, a registered National Natural Landmark? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes:</p> <p style="margin-left: 20px;">i. Nature of the natural landmark: <input type="checkbox"/> Biological Community <input type="checkbox"/> Geological Feature</p> <p style="margin-left: 20px;">ii. Provide brief description of landmark, including values behind designation and approximate size/extent: _____</p> <p>_____</p>	
<p>d. Is the project site located in or does it adjoin a state listed Critical Environmental Area? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No</p> <p>If Yes:</p> <p style="margin-left: 20px;">i. CEA name: _____</p> <p style="margin-left: 20px;">ii. Basis for designation: _____</p> <p style="margin-left: 20px;">iii. Designating agency and date: _____</p>	

e. Does the project site contain, or is it substantially contiguous to, a building, archaeological site, or district which is listed on, or has been nominated by the NYS Board of Historic Preservation for inclusion on, the State or National Register of Historic Places?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If Yes:	
i. Nature of historic/archaeological resource: <input type="checkbox"/> Archaeological Site <input type="checkbox"/> Historic Building or District	
ii. Name: _____	
iii. Brief description of attributes on which listing is based: _____	
f. Is the project site, or any portion of it, located in or adjacent to an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
g. Have additional archaeological or historic site(s) or resources been identified on the project site?	
If Yes:	
i. Describe possible resource(s): _____	
ii. Basis for identification: _____	
h. Is the project site within five miles of any officially designated and publicly accessible federal, state, or local scenic or aesthetic resource?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If Yes:	
i. Identify resource: _____	
ii. Nature of, or basis for, designation (e.g., established highway overlook, state or local park, state historic trail or scenic byway, etc.): _____	
iii. Distance between project and resource: _____ miles.	
i. Is the project site located within a designated river corridor under the Wild, Scenic and Recreational Rivers Program 6 NYCRR 666?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No
If Yes:	
i. Identify the name of the river and its designation: _____	
ii. Is the activity consistent with development restrictions contained in 6NYCRR Part 666?	
<input type="checkbox"/> Yes <input type="checkbox"/> No	

F. Additional Information

Attach any additional information which may be needed to clarify your project.

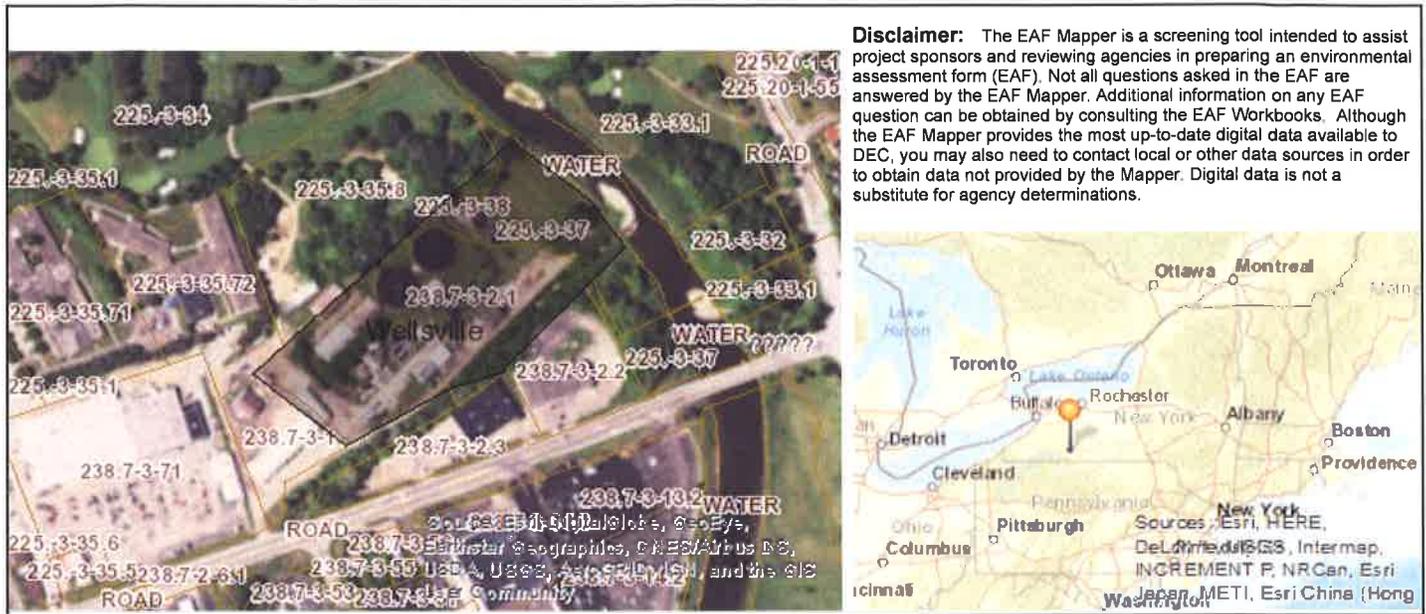

If you have identified any adverse impacts which could be associated with your proposal, please describe those impacts plus any measures which you propose to avoid or minimize them.

G. Verification

I certify that the information provided is true to the best of my knowledge.

Applicant/Sponsor Name Village of Wellsville / Randy Shaylor Date December 12, 2016

Signature  Title Mayor

Disclaimer: The EAF Mapper is a screening tool intended to assist project sponsors and reviewing agencies in preparing an environmental assessment form (EAF). Not all questions asked in the EAF are answered by the EAF Mapper. Additional information on any EAF question can be obtained by consulting the EAF Workbooks. Although the EAF Mapper provides the most up-to-date digital data available to DEC, you may also need to contact local or other data sources in order to obtain data not provided by the Mapper. Digital data is not a substitute for agency determinations.

B.i.i [Coastal or Waterfront Area]	No
B.i.ii [Local Waterfront Revitalization Area]	No
C.2.b. [Special Planning District]	Digital mapping data are not available or are incomplete. Refer to EAF Workbook.
E.1.h [DEC Spills or Remediation Site - Potential Contamination History]	Digital mapping data are not available or are incomplete. Refer to EAF Workbook.
E.1.h.i [DEC Spills or Remediation Site - Listed]	Digital mapping data are not available or are incomplete. Refer to EAF Workbook.
E.1.h.i [DEC Spills or Remediation Site - Environmental Site Remediation Database]	Digital mapping data are not available or are incomplete. Refer to EAF Workbook.
E.1.h.iii [Within 2,000' of DEC Remediation Site]	No
E.2.g [Unique Geologic Features]	No
E.2.h.i [Surface Water Features]	Yes
E.2.h.ii [Surface Water Features]	Yes
E.2.h.iii [Surface Water Features]	Yes - Digital mapping information on local and federal wetlands and waterbodies is known to be incomplete. Refer to EAF Workbook.
E.2.h.iv [Surface Water Features - Stream Name]	821-437.2, 821-5
E.2.h.iv [Surface Water Features - Stream Classification]	C, C(T)
E.2.h.iv [Surface Water Features - Wetlands Name]	Federal Waters
E.2.h.v [Impaired Water Bodies]	No
E.2.i. [Floodway]	Digital mapping data are not available or are incomplete. Refer to EAF Workbook.
E.2.j. [100 Year Floodplain]	Digital mapping data are not available or are incomplete. Refer to EAF Workbook.

E.2.k. [500 Year Floodplain]	Digital mapping data are not available or are incomplete. Refer to EAF Workbook.
E.2.l. [Aquifers]	Yes
E.2.l. [Aquifer Names]	Principal Aquifer
E.2.n. [Natural Communities]	No
E.2.o. [Endangered or Threatened Species]	No
E.2.p. [Rare Plants or Animals]	No
E.3.a. [Agricultural District]	No
E.3.c. [National Natural Landmark]	No
E.3.d. [Critical Environmental Area]	No
E.3.e. [National Register of Historic Places]	Digital mapping data are not available or are incomplete. Refer to EAF Workbook.
E.3.f. [Archeological Sites]	No
E.3.i. [Designated River Corridor]	No

TELEPHONE: (585) 381-9250 FACSIMILE: (585) 381-1008

Full Environmental Assessment Form
Part 2 - Identification of Potential Project Impacts

Agency Use Only [If applicable]

Project :	WWTP Improvement Project
Date :	January 16, 2017

Part 2 is to be completed by the lead agency. Part 2 is designed to help the lead agency inventory all potential resources that could be affected by a proposed project or action. We recognize that the lead agency's reviewer(s) will not necessarily be environmental professionals. So, the questions are designed to walk a reviewer through the assessment process by providing a series of questions that can be answered using the information found in Part 1. To further assist the lead agency in completing Part 2, the form identifies the most relevant questions in Part 1 that will provide the information needed to answer the Part 2 question. When Part 2 is completed, the lead agency will have identified the relevant environmental areas that may be impacted by the proposed activity.

If the lead agency is a state agency **and** the action is in any Coastal Area, complete the Coastal Assessment Form before proceeding with this assessment.

Tips for completing Part 2:

- Review all of the information provided in Part 1.
- Review any application, maps, supporting materials and the Full EAF Workbook.
- Answer each of the 18 questions in Part 2.
- If you answer “Yes” to a numbered question, please complete all the questions that follow in that section.
- If you answer “No” to a numbered question, move on to the next numbered question.
- Check appropriate column to indicate the anticipated size of the impact.
- Proposed projects that would exceed a numeric threshold contained in a question should result in the reviewing agency checking the box “Moderate to large impact may occur.”
- The reviewer is not expected to be an expert in environmental analysis.
- If you are not sure or undecided about the size of an impact, it may help to review the sub-questions for the general question and consult the workbook.
- When answering a question consider all components of the proposed activity, that is, the “whole action”.
- Consider the possibility for long-term and cumulative impacts as well as direct impacts.
- Answer the question in a reasonable manner considering the scale and context of the project.

1. Impact on Land			
Proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1. D.1)		<input type="checkbox"/> NO	<input checked="" type="checkbox"/> YES
<i>If “Yes”, answer questions a - j. If “No”, move on to Section 2.</i>			
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may involve construction on land where depth to water table is less than 3 feet.	E2d	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may involve construction on slopes of 15% or greater.	E2f	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may involve construction on land where bedrock is exposed, or generally within 5 feet of existing ground surface.	E2a	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may involve the excavation and removal of more than 1,000 tons of natural material.	D2a	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may involve construction that continues for more than one year or in multiple phases.	D1e	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).	D2e, D2q	<input checked="" type="checkbox"/>	<input type="checkbox"/>
g. The proposed action is, or may be, located within a Coastal Erosion hazard area.	B1i	<input type="checkbox"/>	<input type="checkbox"/>
h. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

2. Impact on Geological Features

The proposed action may result in the modification or destruction of, or inhibit access to, any unique or unusual land forms on the site (e.g., cliffs, dunes, minerals, fossils, caves). (See Part 1. E.2.g)

NO

YES

If "Yes", answer questions a - c. If "No", move on to Section 3.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Identify the specific land form(s) attached: _____ _____	E2g	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may affect or is adjacent to a geological feature listed as a registered National Natural Landmark. Specific feature: _____	E3c	<input type="checkbox"/>	<input type="checkbox"/>
c. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

3. Impacts on Surface Water

The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h)

NO

YES

If "Yes", answer questions a - l. If "No", move on to Section 4.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may create a new water body.	D2b, D1h	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in an increase or decrease of over 10% or more than a 10 acre increase or decrease in the surface area of any body of water.	D2b	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may involve dredging more than 100 cubic yards of material from a wetland or water body.	D2a	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.	E2h	<input checked="" type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may create turbidity in a waterbody, either from upland erosion, runoff or by disturbing bottom sediments.	D2a, D2h	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action may include construction of one or more intake(s) for withdrawal of water from surface water.	D2c	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action may include construction of one or more outfall(s) for discharge of wastewater to surface water(s).	D2d	<input type="checkbox"/>	<input type="checkbox"/>
h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.	D2e	<input checked="" type="checkbox"/>	<input type="checkbox"/>
i. The proposed action may affect the water quality of any water bodies within or downstream of the site of the proposed action.	E2h	<input type="checkbox"/>	<input type="checkbox"/>
j. The proposed action may involve the application of pesticides or herbicides in or around any water body.	D2q, E2h	<input type="checkbox"/>	<input type="checkbox"/>
k. The proposed action may require the construction of new, or expansion of existing, wastewater treatment facilities.	D1a, D2d	<input type="checkbox"/>	<input type="checkbox"/>

I. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>
----------------------------------	--	--------------------------	--------------------------

4. Impact on groundwater

The proposed action may result in new or additional use of ground water, or may have the potential to introduce contaminants to ground water or an aquifer.

NO

YES

(See Part 1. D.2.a, D.2.c, D.2.d, D.2.p, D.2.q, D.2.t)

If "Yes", answer questions a - h. If "No", move on to Section 5.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may require new water supply wells, or create additional demand on supplies from existing water supply wells.	D2c	<input type="checkbox"/>	<input type="checkbox"/>
b. Water supply demand from the proposed action may exceed safe and sustainable withdrawal capacity rate of the local supply or aquifer. Cite Source: _____	D2c	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may allow or result in residential uses in areas without water and sewer services.	D1a, D2c	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may include or require wastewater discharged to groundwater.	D2d, E2l	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may result in the construction of water supply wells in locations where groundwater is, or is suspected to be, contaminated.	D2c, E1f, E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action may require the bulk storage of petroleum or chemical products over ground water or an aquifer.	D2p, E2l	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action may involve the commercial application of pesticides within 100 feet of potable drinking water or irrigation sources.	E2h, D2q, E2l, D2c	<input type="checkbox"/>	<input type="checkbox"/>
h. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

5. Impact on Flooding

The proposed action may result in development on lands subject to flooding.

NO

YES

(See Part 1. E.2)

If "Yes", answer questions a - g. If "No", move on to Section 6.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in development in a designated floodway.	E2i	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in development within a 100 year floodplain.	E2j	<input checked="" type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may result in development within a 500 year floodplain.	E2k	<input checked="" type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may result in, or require, modification of existing drainage patterns.	D2b, D2e	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may change flood water flows that contribute to flooding.	D2b, E2i, E2j, E2k	<input type="checkbox"/>	<input type="checkbox"/>
f. If there is a dam located on the site of the proposed action, is the dam in need of repair, or upgrade?	E1e	<input type="checkbox"/>	<input type="checkbox"/>

g. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>
----------------------------------	--	--------------------------	--------------------------

6. Impacts on Air The proposed action may include a state regulated air emission source. <input checked="" type="checkbox"/> NO <input type="checkbox"/> YES (See Part 1. D.2.f., D.2.h, D.2.g) <i>If "Yes", answer questions a - f. If "No", move on to Section 7.</i>			
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. If the proposed action requires federal or state air emission permits, the action may also emit one or more greenhouse gases at or above the following levels:			
i. More than 1000 tons/year of carbon dioxide (CO ₂)	D2g	<input type="checkbox"/>	<input type="checkbox"/>
ii. More than 3.5 tons/year of nitrous oxide (N ₂ O)	D2g	<input type="checkbox"/>	<input type="checkbox"/>
iii. More than 1000 tons/year of carbon equivalent of perfluorocarbons (PFCs)	D2g	<input type="checkbox"/>	<input type="checkbox"/>
iv. More than .045 tons/year of sulfur hexafluoride (SF ₆)	D2g	<input type="checkbox"/>	<input type="checkbox"/>
v. More than 1000 tons/year of carbon dioxide equivalent of hydrochloroflourocarbons (HFCs) emissions	D2g	<input type="checkbox"/>	<input type="checkbox"/>
vi. 43 tons/year or more of methane	D2h	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may generate 10 tons/year or more of any one designated hazardous air pollutant, or 25 tons/year or more of any combination of such hazardous air pollutants.	D2g	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may require a state air registration, or may produce an emissions rate of total contaminants that may exceed 5 lbs. per hour, or may include a heat source capable of producing more than 10 million BTU's per hour.	D2f, D2g	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may reach 50% of any of the thresholds in "a" through "c", above.	D2g	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may result in the combustion or thermal treatment of more than 1 ton of refuse per hour.	D2s	<input type="checkbox"/>	<input type="checkbox"/>
f. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

7. Impact on Plants and Animals The proposed action may result in a loss of flora or fauna. (See Part 1. E.2. m.-q.) <input checked="" type="checkbox"/> NO <input type="checkbox"/> YES <i>If "Yes", answer questions a - j. If "No", move on to Section 8.</i>			
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may cause reduction in population or loss of individuals of any threatened or endangered species, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2o	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in a reduction or degradation of any habitat used by any rare, threatened or endangered species, as listed by New York State or the federal government.	E2o	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may cause reduction in population, or loss of individuals, of any species of special concern or conservation need, as listed by New York State or the Federal government, that use the site, or are found on, over, or near the site.	E2p	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may result in a reduction or degradation of any habitat used by any species of special concern and conservation need, as listed by New York State or the Federal government.	E2p	<input type="checkbox"/>	<input type="checkbox"/>

e. The proposed action may diminish the capacity of a registered National Natural Landmark to support the biological community it was established to protect.	E3c	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action may result in the removal of, or ground disturbance in, any portion of a designated significant natural community. Source: _____	E2n	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action may substantially interfere with nesting/breeding, foraging, or over-wintering habitat for the predominant species that occupy or use the project site.	E2m	<input type="checkbox"/>	<input type="checkbox"/>
h. The proposed action requires the conversion of more than 10 acres of forest, grassland or any other regionally or locally important habitat. Habitat type & information source: _____	E1b	<input type="checkbox"/>	<input type="checkbox"/>
i. Proposed action (commercial, industrial or recreational projects, only) involves use of herbicides or pesticides.	D2q	<input type="checkbox"/>	<input type="checkbox"/>
j. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

8. Impact on Agricultural Resources			
The proposed action may impact agricultural resources. (See Part 1. E.3.a. and b.)		<input checked="" type="checkbox"/> NO	<input type="checkbox"/> YES
<i>If "Yes", answer questions a - h. If "No", move on to Section 9.</i>			
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may impact soil classified within soil group 1 through 4 of the NYS Land Classification System.	E2c, E3b	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may sever, cross or otherwise limit access to agricultural land (includes cropland, hayfields, pasture, vineyard, orchard, etc).	E1a, E1b	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may result in the excavation or compaction of the soil profile of active agricultural land.	E3b	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may irreversibly convert agricultural land to non-agricultural uses, either more than 2.5 acres if located in an Agricultural District, or more than 10 acres if not within an Agricultural District.	E1b, E3a	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may disrupt or prevent installation of an agricultural land management system.	E1 a, E1b	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action may result, directly or indirectly, in increased development potential or pressure on farmland.	C2c, C3, D2c, D2d	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed project is not consistent with the adopted municipal Farmland Protection Plan.	C2c	<input type="checkbox"/>	<input type="checkbox"/>
h. Other impacts: _____		<input type="checkbox"/>	<input type="checkbox"/>

9. Impact on Aesthetic Resources The land use of the proposed action are obviously different from, or are in sharp contrast to, current land use patterns between the proposed project and a scenic or aesthetic resource. (Part 1. E.1.a, E.1.b, E.3.h.) <i>If "Yes", answer questions a - g. If "No", go to Section 10.</i>				<input checked="" type="checkbox"/> NO	<input type="checkbox"/> YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur		
a. Proposed action may be visible from any officially designated federal, state, or local scenic or aesthetic resource.	E3h	<input type="checkbox"/>	<input type="checkbox"/>		
b. The proposed action may result in the obstruction, elimination or significant screening of one or more officially designated scenic views.	E3h, C2b	<input type="checkbox"/>	<input type="checkbox"/>		
c. The proposed action may be visible from publicly accessible vantage points: i. Seasonally (e.g., screened by summer foliage, but visible during other seasons) ii. Year round	E3h	<input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>		
d. The situation or activity in which viewers are engaged while viewing the proposed action is: i. Routine travel by residents, including travel to and from work ii. Recreational or tourism based activities	E3h E2q, E1c	<input type="checkbox"/> <input type="checkbox"/>	<input type="checkbox"/> <input type="checkbox"/>		
e. The proposed action may cause a diminishment of the public enjoyment and appreciation of the designated aesthetic resource.	E3h	<input type="checkbox"/>	<input type="checkbox"/>		
f. There are similar projects visible within the following distance of the proposed project: 0-1/2 mile 1/2 -3 mile 3-5 mile 5+ mile	D1a, E1a, D1f, D1g	<input type="checkbox"/>	<input type="checkbox"/>		
g. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>		

10. Impact on Historic and Archeological Resources The proposed action may occur in or adjacent to a historic or archaeological resource. (Part 1. E.3.e, f. and g.) <i>If "Yes", answer questions a - e. If "No", go to Section 11.</i>				<input checked="" type="checkbox"/> NO	<input type="checkbox"/> YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur		
a. The proposed action may occur wholly or partially within, or substantially contiguous to, any buildings, archaeological site or district which is listed on or has been nominated by the NYS Board of Historic Preservation for inclusion on the State or National Register of Historic Places.	E3e	<input type="checkbox"/>	<input type="checkbox"/>		
b. The proposed action may occur wholly or partially within, or substantially contiguous to, an area designated as sensitive for archaeological sites on the NY State Historic Preservation Office (SHPO) archaeological site inventory.	E3f	<input type="checkbox"/>	<input type="checkbox"/>		
c. The proposed action may occur wholly or partially within, or substantially contiguous to, an archaeological site not included on the NY SHPO inventory. Source: _____	E3g	<input type="checkbox"/>	<input type="checkbox"/>		

d. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>
e. If any of the above (a-d) are answered "Yes", continue with the following questions to help support conclusions in Part 3:			
i. The proposed action may result in the destruction or alteration of all or part of the site or property.	E3e, E3g, E3f	<input type="checkbox"/>	<input type="checkbox"/>
ii. The proposed action may result in the alteration of the property's setting or integrity.	E3e, E3f, E3g, E1a, E1b	<input type="checkbox"/>	<input type="checkbox"/>
iii. The proposed action may result in the introduction of visual elements which are out of character with the site or property, or may alter its setting.	E3e, E3f, E3g, E3h, C2, C3	<input type="checkbox"/>	<input type="checkbox"/>

11. Impact on Open Space and Recreation The proposed action may result in a loss of recreational opportunities or a reduction of an open space resource as designated in any adopted municipal open space plan. (See Part 1. C.2.c, E.1.c., E.2.q.) <i>If "Yes", answer questions a - e. If "No", go to Section 12.</i>			
		<input checked="" type="checkbox"/> NO	<input type="checkbox"/> YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in an impairment of natural functions, or "ecosystem services", provided by an undeveloped area, including but not limited to stormwater storage, nutrient cycling, wildlife habitat.	D2e, E1b E2h, E2m, E2o, E2n, E2p	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in the loss of a current or future recreational resource.	C2a, E1c, C2c, E2q	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may eliminate open space or recreational resource in an area with few such resources.	C2a, C2c E1c, E2q	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may result in loss of an area now used informally by the community as an open space resource.	C2c, E1c	<input type="checkbox"/>	<input type="checkbox"/>
e. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

12. Impact on Critical Environmental Areas The proposed action may be located within or adjacent to a critical environmental area (CEA). (See Part 1. E.3.d) <i>If "Yes", answer questions a - c. If "No", go to Section 13.</i>			
		<input checked="" type="checkbox"/> NO	<input type="checkbox"/> YES
	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may result in a reduction in the quantity of the resource or characteristic which was the basis for designation of the CEA.	E3d	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in a reduction in the quality of the resource or characteristic which was the basis for designation of the CEA.	E3d	<input type="checkbox"/>	<input type="checkbox"/>
c. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

13. Impact on Transportation
 The proposed action may result in a change to existing transportation systems. NO YES
 (See Part 1. D.2.j)
If "Yes", answer questions a - g. If "No", go to Section 14.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. Projected traffic increase may exceed capacity of existing road network.	D2j	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in the construction of paved parking area for 500 or more vehicles.	D2j	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action will degrade existing transit access.	D2j	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action will degrade existing pedestrian or bicycle accommodations.	D2j	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may alter the present pattern of movement of people or goods.	D2j	<input type="checkbox"/>	<input type="checkbox"/>
f. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

14. Impact on Energy
 The proposed action may cause an increase in the use of any form of energy. NO YES
 (See Part 1. D.2.k)
If "Yes", answer questions a - e. If "No", go to Section 15.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action will require a new, or an upgrade to an existing, substation.	D2k	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action will require the creation or extension of an energy transmission or supply system to serve more than 50 single or two-family residences or to serve a commercial or industrial use.	D1f, D1q, D2k	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may utilize more than 2,500 MWhrs per year of electricity.	D2k	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may involve heating and/or cooling of more than 100,000 square feet of building area when completed.	D1g	<input type="checkbox"/>	<input type="checkbox"/>
e. Other Impacts: <u>Proposed UV Disinfection System</u> _____		<input checked="" type="checkbox"/>	<input type="checkbox"/>

15. Impact on Noise, Odor, and Light
 The proposed action may result in an increase in noise, odors, or outdoor lighting. NO YES
 (See Part 1. D.2.m., n., and o.)
If "Yes", answer questions a - f. If "No", go to Section 16.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may produce sound above noise levels established by local regulation.	D2m	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may result in blasting within 1,500 feet of any residence, hospital, school, licensed day care center, or nursing home.	D2m, E1d	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may result in routine odors for more than one hour per day.	D2o	<input type="checkbox"/>	<input type="checkbox"/>

d. The proposed action may result in light shining onto adjoining properties.	D2n	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may result in lighting creating sky-glow brighter than existing area conditions.	D2n, E1a	<input type="checkbox"/>	<input type="checkbox"/>
f. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

16. Impact on Human Health

The proposed action may have an impact on human health from exposure to new or existing sources of contaminants. (See Part 1.D.2.q., E.1. d. f. g. and h.) NO YES

If "Yes", answer questions a - m. If "No", go to Section 17.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action is located within 1500 feet of a school, hospital, licensed day care center, group home, nursing home or retirement community.	E1d	<input type="checkbox"/>	<input type="checkbox"/>
b. The site of the proposed action is currently undergoing remediation.	E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
c. There is a completed emergency spill remediation, or a completed environmental site remediation on, or adjacent to, the site of the proposed action.	E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
d. The site of the action is subject to an institutional control limiting the use of the property (e.g., easement or deed restriction).	E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may affect institutional control measures that were put in place to ensure that the site remains protective of the environment and human health.	E1g, E1h	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action has adequate control measures in place to ensure that future generation, treatment and/or disposal of hazardous wastes will be protective of the environment and human health.	D2t	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action involves construction or modification of a solid waste management facility.	D2q, E1f	<input type="checkbox"/>	<input type="checkbox"/>
h. The proposed action may result in the unearthing of solid or hazardous waste.	D2q, E1f	<input type="checkbox"/>	<input type="checkbox"/>
i. The proposed action may result in an increase in the rate of disposal, or processing, of solid waste.	D2r, D2s	<input type="checkbox"/>	<input type="checkbox"/>
j. The proposed action may result in excavation or other disturbance within 2000 feet of a site used for the disposal of solid or hazardous waste.	E1f, E1g E1h	<input type="checkbox"/>	<input type="checkbox"/>
k. The proposed action may result in the migration of explosive gases from a landfill site to adjacent off site structures.	E1f, E1g	<input type="checkbox"/>	<input type="checkbox"/>
l. The proposed action may result in the release of contaminated leachate from the project site.	D2s, E1f, D2r	<input type="checkbox"/>	<input type="checkbox"/>
m. Other impacts: _____ _____			

17. Consistency with Community Plans

The proposed action is not consistent with adopted land use plans.
(See Part 1. C.1, C.2. and C.3.)

NO

YES

If "Yes", answer questions a - h. If "No", go to Section 18.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action's land use components may be different from, or in sharp contrast to, current surrounding land use pattern(s).	C2, C3, D1a E1a, E1b	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action will cause the permanent population of the city, town or village in which the project is located to grow by more than 5%.	C2	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action is inconsistent with local land use plans or zoning regulations.	C2, C2, C3	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action is inconsistent with any County plans, or other regional land use plans.	C2, C2	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action may cause a change in the density of development that is not supported by existing infrastructure or is distant from existing infrastructure.	C3, D1c, D1d, D1f, D1d, E1b	<input type="checkbox"/>	<input type="checkbox"/>
f. The proposed action is located in an area characterized by low density development that will require new or expanded public infrastructure.	C4, D2c, D2d D2j	<input type="checkbox"/>	<input type="checkbox"/>
g. The proposed action may induce secondary development impacts (e.g., residential or commercial development not included in the proposed action)	C2a	<input type="checkbox"/>	<input type="checkbox"/>
h. Other: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

18. Consistency with Community Character

The proposed project is inconsistent with the existing community character.
(See Part 1. C.2, C.3, D.2, E.3)

NO

YES

If "Yes", answer questions a - g. If "No", proceed to Part 3.

	Relevant Part I Question(s)	No, or small impact may occur	Moderate to large impact may occur
a. The proposed action may replace or eliminate existing facilities, structures, or areas of historic importance to the community.	E3e, E3f, E3g	<input type="checkbox"/>	<input type="checkbox"/>
b. The proposed action may create a demand for additional community services (e.g. schools, police and fire)	C4	<input type="checkbox"/>	<input type="checkbox"/>
c. The proposed action may displace affordable or low-income housing in an area where there is a shortage of such housing.	C2, C3, D1f D1g, E1a	<input type="checkbox"/>	<input type="checkbox"/>
d. The proposed action may interfere with the use or enjoyment of officially recognized or designated public resources.	C2, E3	<input type="checkbox"/>	<input type="checkbox"/>
e. The proposed action is inconsistent with the predominant architectural scale and character.	C2, C3	<input type="checkbox"/>	<input type="checkbox"/>
f. Proposed action is inconsistent with the character of the existing natural landscape.	C2, C3 E1a, E1b E2g, E2h	<input type="checkbox"/>	<input type="checkbox"/>
g. Other impacts: _____ _____		<input type="checkbox"/>	<input type="checkbox"/>

PRINT FULL FORM

Note: All potential impacts that have been identified in the Full EAF Part 2 as No or Small Impacts have been described in this document. Numbering is consistent as outlined in Full EAF Part 2.

1. **IMPACT OF LAND** – The proposed action may involve construction on, or physical alteration of, the land surface of the proposed site. (See Part 1. D.1)
 - a. The proposed action may involve construction on land where depth to water table is less than 3 feet.
 - The project will occur in areas where the depth to the water table will be 1-2 feet below the surface according to the USDA Natural Resources Conservation Service - Web Soil Survey. Appropriate dewatering measures and drainage measures will be installed during construction. The project will meet all NYS Department of Environmental Conservation (NYSDEC) requirements to assure that erosion and sedimentation are managed throughout the construction phase of the project and all water quality practices required are in place.
 - f. The proposed action may result in increased erosion, whether from physical disturbance or vegetation removal (including from treatment by herbicides).
 - The anticipated area of disturbance for the proposed project including overall site clearing limits is anticipated to be approximately 1.0 +/- acres of land. A Stormwater Pollution Prevention Plan (SWPPP) will be prepared and all erosion and control measures will be designed and installed per the requirements set forth in the latest edition (2016) of the New York Standards and Specifications for Erosion and Sediment Control.
3. **IMPACTS ON SURFACE WATER** - The proposed action may affect one or more wetlands or other surface water bodies (e.g., streams, rivers, ponds or lakes). (See Part 1. D.2, E.2.h)
 - d. The proposed action may involve construction within or adjoining a freshwater or tidal wetland, or in the bed or banks of any other water body.
 - Available mapping demonstrates that a stream is located adjacent to the project area. No work is proposed within the identified stream or banks of the stream. The proposed improvements will be located primarily on the project site and is not expected to negatively impact the identified stream.
 - h. The proposed action may cause soil erosion, or otherwise create a source of stormwater discharge that may lead to siltation or other degradation of receiving water bodies.
 - Portions of the project will be stripped of vegetation and bare soils will be exposed for periods of time during construction. The site will be susceptible to potential erosion with the potential of discharge of sediment into the existing waterways. Approved erosion and sediment control measures as outlined in the Storm Water Pollution Prevention Plan (SWPPP) will be implemented during construction. Erosion and sediment control measures will be inspected to ensure proper installation and function throughout the construction project.

5. IMPACT ON FLOODING - The proposed action may result in development on lands subject to flooding. (See Part 1. E.2.)

- a. The proposed action may result in development in a designated floodway.
- b. The proposed action may result in development within a 100 year floodplain.
- c. The proposed action
 - A portion of the project will be constructed within a designated floodway and the 100 year floodplain. Appropriate drainage measures will be installed during construction. The project will meet all NYS Department of Environmental Conservation (NYSDEC) Phase II Stormwater and the latest General Permit requirements to assure that erosion and sedimentation are managed throughout the construction phase of the project and all water quality practices required are in place. Also the project may be required to receive a Floodplain Development Permit.

10. IMPACT ON HISTORIC AND ARCHEOLOGICAL RESOURCES - The proposed action may occur in or adjacent to a historic or archaeological resource. (Part 1. E.3.e, f. and g.)

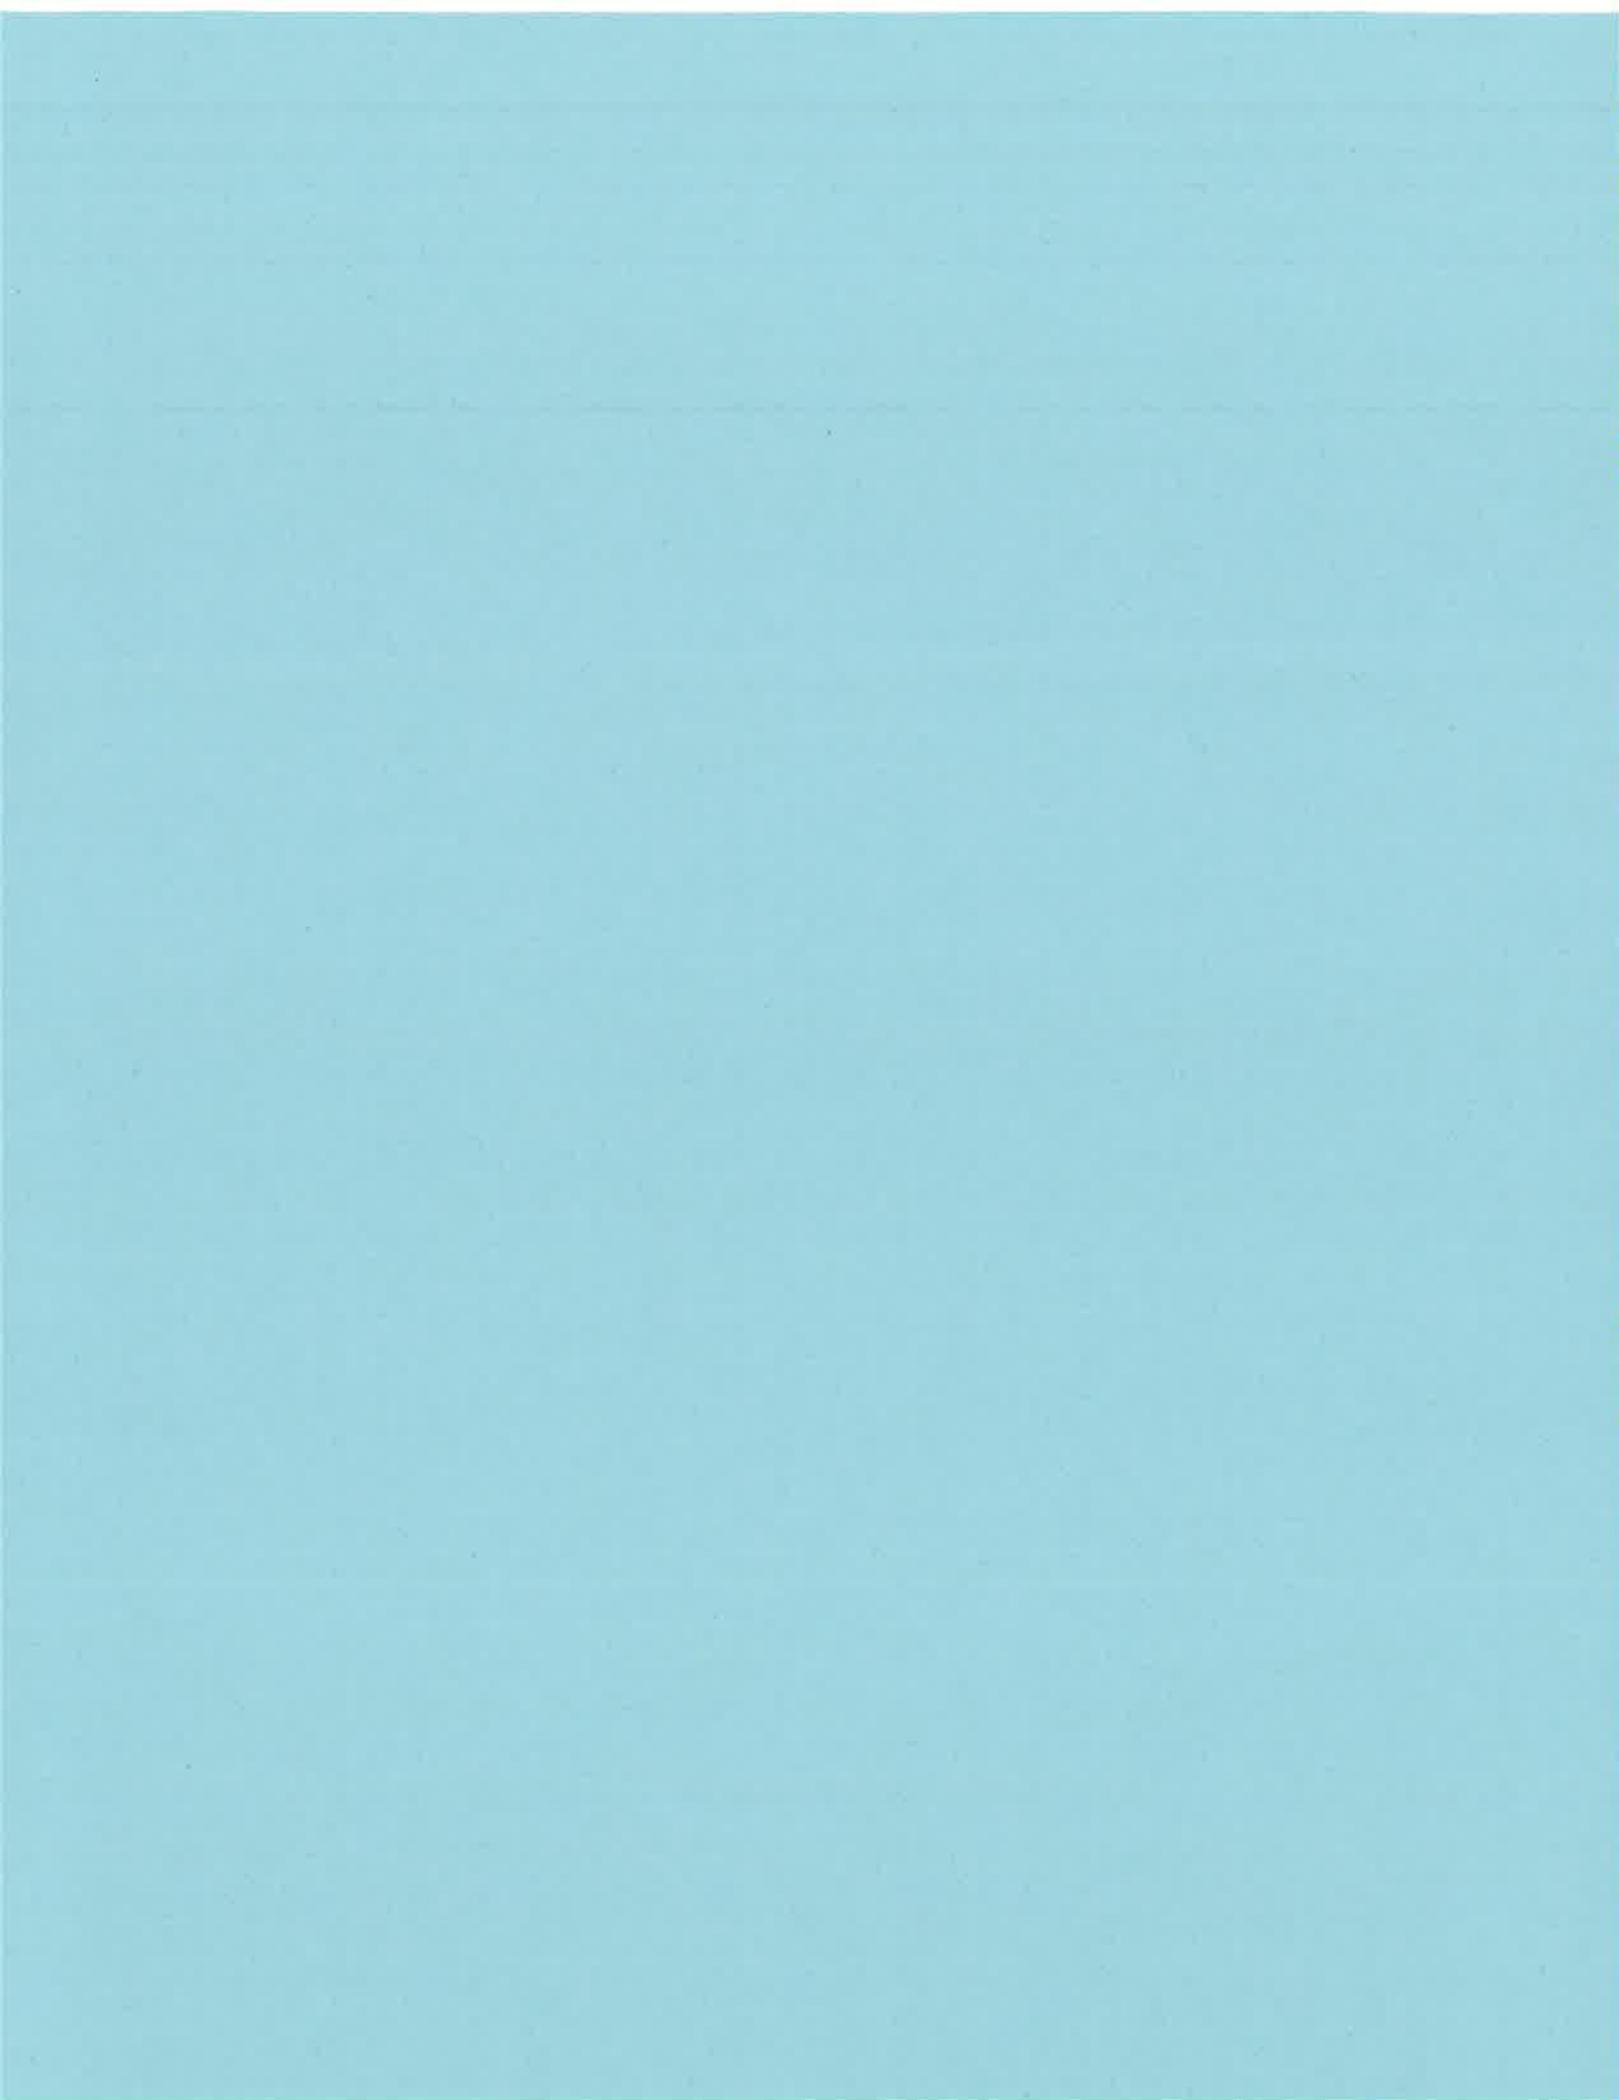

d. Other.

- Because the project is seeking funding through Clean Water State Revolving Fund (CWSRF) administered by the NYS Environmental Facilities Corporation, the State Environmental Review Process (SERP) requirements are to be satisfied which requires coordination NYS Office of Parks, Recreation and Historical Preservation (NYSOPRHP). A consultation was requested using the SHPO Cultural Resource Information System (CRIS) website. A response has been provided by SHPO dated January 6, 2017 stating that this project will have no impact on archaeological and/or historic resources. This will be required to be completed before receiving a permit from NYSDEC.

14. IMPACT ON ENERGY - The proposed action may cause an increase in the use of any form of energy. (Part 1. D.2.k)

d. Other.

- The proposed project will increase the electrical energy use as a new UV Disinfection System is proposed. The increase will be minor with no adverse effects to the community or surrounding area.

Full Environmental Assessment Form
Part 3 - Evaluation of the Magnitude and Importance of Project Impacts
and
Determination of Significance

Part 3 provides the reasons in support of the determination of significance. The lead agency must complete Part 3 for every question in Part 2 where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.

Based on the analysis in Part 3, the lead agency must decide whether to require an environmental impact statement to further assess the proposed action or whether available information is sufficient for the lead agency to conclude that the proposed action will not have a significant adverse environmental impact. By completing the certification on the next page, the lead agency can complete its determination of significance.

Reasons Supporting This Determination:

To complete this section:

- Identify the impact based on the Part 2 responses and describe its magnitude. Magnitude considers factors such as severity, size or extent of an impact.
- Assess the importance of the impact. Importance relates to the geographic scope, duration, probability of the impact occurring, number of people affected by the impact and any additional environmental consequences if the impact were to occur.
- The assessment should take into consideration any design element or project changes.
- Repeat this process for each Part 2 question where the impact has been identified as potentially moderate to large or where there is a need to explain why a particular element of the proposed action will not, or may, result in a significant adverse environmental impact.
- Provide the reason(s) why the impact may, or will not, result in a significant adverse environmental impact
- For Conditional Negative Declarations identify the specific condition(s) imposed that will modify the proposed action so that no significant adverse environmental impacts will result.
- Attach additional sheets, as needed.

The Village of Wellsville Village Board of Trustees has reviewed and accepted Parts 1 & 2 of the Full Environmental Assessment Form (EAF) for this action. The Village Board has been established as the lead agency, under SEQR, for making the required determination of significance. In addition, the general public was made aware of the public review and comment period provided by the Village Board. No significant adverse impacts were identified as the result of this review process. Please see the attached documentation supporting the EAF Part 3 in support of this decision.

Determination of Significance - Type 1 and Unlisted Actions

SEQR Status: Type 1 Unlisted

Identify portions of EAF completed for this Project: Part 1 Part 2 Part 3

Upon review of the information recorded on this EAF, as noted, plus this additional support information
Environmental Assessment Form (EAF) Part 3, the supporting documentation to the EAF and Mapping.

and considering both the magnitude and importance of each identified potential impact, it is the conclusion of the
Village of Wellsville Village Board of Trustees as lead agency that:

A. This project will result in no significant adverse impacts on the environment, and, therefore, an environmental impact statement need not be prepared. Accordingly, this negative declaration is issued.

B. Although this project could have a significant adverse impact on the environment, that impact will be avoided or substantially mitigated because of the following conditions which will be required by the lead agency:

There will, therefore, be no significant adverse impacts from the project as conditioned, and, therefore, this conditioned negative declaration is issued. A conditioned negative declaration may be used only for UNLISTED actions (see 6 NYCRR 617.d).

C. This Project may result in one or more significant adverse impacts on the environment, and an environmental impact statement must be prepared to further assess the impact(s) and possible mitigation and to explore alternatives to avoid or reduce those impacts. Accordingly, this positive declaration is issued.

RE: Village of Wellsville Wastewater Treatment Plant Improvement Project

Pursuant to the State Environmental Quality Review (SEQR) Act, MRB on the behalf of the Village of Wellsville forwarded a SEQR Lead Agency Coordination Package to your agency for review regarding the above referenced Village of Wellsville Wastewater Treatment Improvement Project.

Enclosed within that package was Part I of the SEQR Full Environmental Assessment Form (EAF), Lead Agency Coordination Request Form, and Project Site Plans. Please note that I have attached updated project specific Site Plans to replace the Schematic Site Plans that were provided to you as part of Lead Agency Coordination package.

If you have any questions or comments, please feel free to contact me at your earliest convenience. Thank you.

Sincerely,

Lance S. Brabant, CPESC
Senior Planning Associate

WASTEWATER TREATMENT PLANT IMPROVEMENT PROJECT

To: Interested Agencies under SEQR (Distribution List Attached)

From: Randy Shayler, Mayor

RE: Village of Wellsville Wastewater Treatment Plant Improvement Project

The Village of Wellsville Village Board of Trustees is currently in the process of establishing itself as Lead Agency under the State Environmental Quality Review (SEQR). The enclosed information has been sent to your agency because it has been determined that you may have some interest in the project.

The project includes improvements to the existing Wastewater Treatment Plant (WWTP) to address recent changes to its State Pollution Discharge Elimination System (SPDES) permit. The WWTP currently treats influent flow from the Village and accepts and processes leachate from local landfills. The current changes to the SPDES permit have a direct effect on the capacity of the WWTP and its ability to treat the combined domestic and leachate loading. The project improvements will help upgrade the WWTP to provide more effective and efficient treatment capabilities to treat present and future flows and loadings from both wastewater sources. The project includes: replacing trickling filter media and equipment, replacing recirculation pumps and systems, installation of trickling filter covers, construction of a new leachate storage and discharge facility, inflow and infiltration improvements, new influent screen, new effluent disinfection system, final clarifier improvements, solids de-watering improvements, new SCADA system, and other minor and ancillary improvements associated with upgrading the WWTP.

If you would like more information on the project, please feel free to contact the Village of Wellsville Village Office at (585) 596-1750.

Sincerely,

Randy Shayler, Mayor

WASTEWATER TREATMENT PLANT IMPROVEMENT PROJECT

To: Involved Agencies under SEQR (Distribution List Attached)
From: Randy Shayler, Mayor
RE: Village of Wellsville Wastewater Treatment Plant Improvement Project

Pursuant to the State Environmental Quality Review (SEQR) Act, please be advised that the Village of Wellsville Village Board of Trustees (hereinafter referred to as Village Board) intends to establish itself as Lead Agency for the purpose of implementing the SEQR requirements with respect to the project described below. Enclosed for your review is Part I of the SEQR Full Environmental Assessment Form (EAF), Lead Agency Coordination Request Form, and Project Site Plans.

The project includes improvements to the existing Wastewater Treatment Plant (WWTP) to address recent changes to its State Pollution Discharge Elimination System (SPDES) permit. The WWTP currently treats influent flow from the Village and accepts and processes leachate from local landfills. The current changes to the SPDES permit have a direct effect on the capacity of the WWTP and its ability to treat the combined domestic and leachate loading. The project improvements will help upgrade the WWTP to provide more effective and efficient treatment capabilities to treat present and future flows and loadings from both wastewater sources. The project includes: replacing trickling filter media and equipment, replacing recirculation pumps and systems, installation of trickling filter covers, construction of a new leachate storage and discharge facility, inflow and infiltration improvements, new influent screen, new effluent disinfection system, final clarifier improvements, solids de-watering improvements, new SCADA system, and other minor and ancillary improvements associated with upgrading the upgrading the WWTP.

In accordance with 6NYCRR Part 617 all involved agencies must agree upon the Lead Agency designation within 30 calendar days of the date of receipt of this letter and the enclosed EAF. To facilitate such an agreement and to provide for sufficient time for discussion, if any, the Village Board requests that all response forms to this notice be returned to the noted address as soon as possible.

In the event that a response is not received at or before 12:00 PM on Monday, January 16, 2017 your agency will be deemed to have no objection to the Village of Wellsville Village Board of Trustees assuming Lead Agency status for the purpose of this project. To facilitate your response, please complete the enclosed SEQR Lead Agency Coordination Request Form and return it as part of your response.

Sincerely,

Randy Shayler, Mayor

Negative Declaration

Allegany County - The Village of Wellsville Village Board of Trustees, as lead agency, has determined that the proposed Village of Wellsville Wastewater Treatment Plant (WWTP) Improvement Project will not have a significant adverse environmental impact. The action involves improvements to the existing WWTP to address recent changes to its State Pollution Discharge Elimination System (SPDES) permit. The WWTP currently treats influent flow from the Village and accepts and processes leachate from local landfills. The current changes to the SPDES permit have a direct effect on the capacity of the WWTP and its ability to treat the combined domestic and leachate loading. The project improvements will help upgrade the WWTP to provide more effective and efficient treatment capabilities to treat present and future flows and loadings from both wastewater sources. The project includes: replacing trickling filter media and equipment; replacing recirculation pumps and systems; installation of trickling filter covers; construction of a new leachate storage and discharge facility; inflow and infiltration improvements; new influent screen; new effluent disinfection system; final clarifier improvements; solids de-watering improvements; new SCADA system; and other minor and ancillary improvements associated with upgrading the upgrading the WWTP. The project is located at 200 Bolivar Road in the Village of Wellsville, New York.

Contact: Randy Shayler, Village of Wellsville, P.O. Box 591, Wellsville, NY 14895, Phone: (585) 596-1750, E-mail: mayorshayler@wellsvilleny.com.

Cattaraugus County - The New York State Department of Environmental Conservation (NYS DEC), as lead agency, has determined that the proposed Gernatt Asphalt Products Inc. Point Peter Road Pit Northern Expansion will not have a significant adverse environmental impact. The action involves an approximately 35.8 acre expansion out of a 38.6 acre parcel of land owned by Gernatt Asphalt Products, Inc. (applicant). The site is located to the north of the permitted 31.7 acre Point Peter Road Pit. Most material will be loaded directly onto trucks and taken to an off-site processing plant. There will be no excavation into the groundwater table and no other changes to the existing mining operation. The reclamation objective is to open space and wildlife habitat. The project is located on the east side of Point Peter Road in the Town of Persia, New York.

Contact: Charles D. Cranston, NYS DEC - Region 9 Allegany Sub Office, Division of Environmental Permits, 182 East Union, Suite 2, Allegany, NY 14706-1328, Phone: (716) 372-0645, E-mail: dep.r9@dec.ny.gov.

Erie County - The New York State Office of Parks, Recreation and Historic Preservation (NYS OPRHP), as lead agency, has determined that the proposed Buckhorn Island State Park Invasive Species Management will not have a significant adverse environmental impact. The Buffalo Audubon Society has received a National Fish and Wildlife Foundation (NFWF) grant for Invasive Species (IS) control and management and habitat restoration in portions of Buckhorn Island State Park. The work involves conducting baseline IS surveys and mapping; and IS control activities within upland and riparian habitat through mechanical and chemical treatments. IS to be targeted include Buckthorn

RE: CDBG Project Number: 1225PR173-19

Dear Mr. Mattison :

I, Mayor Randy M. Shayler, the authorized signatory for
(Name of Chief Elected Official)
Village of Wellsville do attest that:
(Name of CDBG Recipient)

- I understand that any projects that include CDBG funds must be assessed in accordance with the National Environmental Policy Act of 1969 (NEPA) and the related authorities listed at 24 CFR Part 58.
- I understand that, except for actions involving activities determined to be Exempt (per 24 CFR 58.34 and NYS Office of Community Renewal procedures), ***no physical alteration to individual sites can occur nor can funds for those activities be committed or expended until receipt of an environmental clearance letter*** from the Housing Trust Fund Corporation and, for any subsequently identified specific sites, site-specific reviews are completed for which the Certifying Officer determines that there are no unanticipated impacts nor impacts not adequately addressed in the program review related to the environmental clearance letter and said Officer certifies such determination.
- I understand that should any part of a project site be physically altered, funds be committed, or funds be expended prior to receiving the appropriate environmental clearances, that the site will not be eligible for CDBG funding and the Village of Wellsville may be responsible for any costs incurred except under the following circumstance: in the case of Exempt activities, concurrence from the NYS Office of Community Renewal that the particular action is Exempt prior to any physical alterations unless that action is taken to address an emergency situation in which case concurrence must be obtained no later than the first regular business day following such an event,
- I also notify you that William D. Whitfield, Director of DPW, is
(Name of Certifying Officer) *(Title)*
designated as the ***Certifying Officer*** responsible for all activities associated with the environmental review process to be completed in conjunction with NYS CDBG project number 1225PR173-19 awarded to Village of Wellsville.
(CDBG Project Number) *(Name of CDBG Recipient)*

Sincerely,

RESOLUTION NO 19/20-7 OF THE VILLAGE BOARD OF TRUSTEES

RESOLUTION TO AFFIRMATIVELY FURTHER FAIR HOUSING

At a regular meeting of the Board of Trustees of the Village of Wellsville, New York held on February 10, 2020, the following resolution was adopted:

WHEREAS, the Village of Wellsville Village Board of Trustees (hereinafter referred to as Village Board) is familiar with Title VIII, Civil Rights Act of 1968, the Fair Housing Amendment Act (FHAA), commonly referred to as the Fair Housing Act, and the NYS Human Rights Law; and

WHEREAS, the Village Board reaffirms its support for fair housing opportunities for all persons which prohibits discrimination in the sale, rental and financing of dwellings and other housing-related transactions based on race, color, national origin, religion, sex, familial status, disability, creed, age, sexual orientation, marital status or military status; and

WHEREAS, the Village Board will administer programs and activities related to housing and urban development in a manner to affirmatively further fair housing including making complaint forms available upon request and designating December as Fair Housing Month to raise awareness.

NOW THEREFORE BE IT RESOLVED, that the Village Board agrees to commit to fair housing within its jurisdiction causing residents, owners of real estate, builders, developers and mortgage lenders to become aware of their respective responsibilities and rights under Fair Housing Legislation and other applicable laws or ordinance and the Village Board will substantially comply with all applicable Federal, State and Local Laws in their efforts to further fair housing, hereby designates December as Fair Housing Month in the Village of Wellsville and the Code Enforcement Officer as the Village of Wellsville Fair Housing Officer.

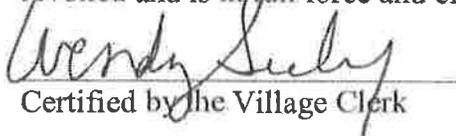

Dated: February 10, 2020; this resolution shall take effect immediately.

Moved by Trustee Monroe; seconded by Trustee Cole.

The foregoing resolution was adopted by the Board of Trustees of the Village of Wellsville by roll call:

Trustee Cole	<u>AYE</u>	Trustee Fahs	<u>absent</u>

RESOLUTION NO 19/20-8 OF THE VILLAGE BOARD OF TRUSTEES

TO DESIGNATE CERTIFYING OFFICER AND ENVIRONMENTAL RESPONSIBILITY CERTIFICATION

At a regular meeting of the Board of Trustees of the Village of Wellsville, New York held on February 10, 2020, the following resolution was adopted:

WHEREAS, the Village of Wellsville Village Board of Trustees (hereinafter referred to as Village Board) is working with the Office of Community Renewal (OCR) and completing a New York State Community Development Block Grant (CDBG) application to receive funds for the Village of Wellsville Wastewater Treatment Plant Improvements Project (hereinafter referred to as Action); and

WHEREAS, the Village Board understands that any project that includes CDBG funds must be assessed in accordance with the National Environmental Policy Act of 1969 (NEPA) and related authorities listed at 24 CFR Part 58; and

WHEREAS, as part of those regulations the Village Board must identify and designate a Certifying Officer and complete the Office of Community Renewal Form 2-1 "Designation of Certifying Officer"; and

NOW, THEREFORE BE IT RESOLVED that the Village Board does hereby designate William D. Whitfield, as the Certifying Officer responsible for all activities associated with the environmental review process to be completed in conjunction with NYS CDBG project awarded to the Village of Wellsville.

BE IT FURTHER RESOLVED, that the Certifying Officer is directed to sign the Office of Community Renewal Form 2-1.

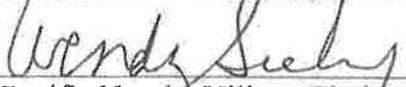

Dated: February 10, 2020; this resolution shall take effect immediately.

Moved by Trustee Monroe; seconded by Trustee Cole.

The foregoing resolution was adopted by the Board of Trustees of the Village of Wellsville by roll call:

Trustee Cole	<u>AYE</u>	Trustee Fahs	<u>absent</u>
Trustee Monroe	<u>AYE</u>	Trustee Roeske	<u>AYE</u>
Mayor Shayler	<u>AYE</u>		

I, Wendy Seely, do hereby certify that Resolution #19/20-8 was passed at a meeting of the Board of Trustees of the Village of Wellsville, New York held on February 10, 2020, and is incorporated in the original minutes of that said meeting, and that said Resolution has not been altered, amended or revoked and is in full force and effect.

Exempt Activities (24CFR58.34)
Select only one or more of the following that apply:

- Environmental and other studies, resource identification and development of plans and strategies [58.34(a)(1)].
- Information and financial services [58.34(a)(2)].
- Administration and management activities [58.34(a)(3)].
- Public services that will not have a physical impact or result in physical changes, such as services concerned with employment, crime prevention, child care, health, drug abuse, education, counseling, energy conservation and welfare or recreational needs [58.34(a)(4)].
- Inspections and testing of properties for hazards or defects [58.34(a)(5)].
- Purchase of insurance [58.34(a)(6)].
- Purchase of tools [58.34(a)(7)].
- Engineering or design costs [58.34(a)(8)].
- Technical assistance and training [58.34(a)(9)].
- Assistance for temporary or permanent improvements that do not alter environmental conditions and are limited to protection, repair or restoration activities necessary only to control or arrest the effects from physical disasters, imminent threats or physical deterioration [58.34(a)(10)].
- Payment of principal and interest on loans made or obligations guaranteed by HUD [58.34(a)(11)].
- Any of the categorical exclusions listed in 58.35(a), provided that there are no circumstances which require compliance with any other federal laws and authorities cited in 58.5 [58.34(a)(12)].

NEPA Classification Checklist

CATEGORICALLY EXCLUDED ACTIVITIES [24 CFR 58.35(a)]

Activities in this section require compliance with related laws and authorities at 24 CFR 58.5 and 58.6

Select only one of the following:

- Acquisition, repair, construction, reconstruction, rehabilitation or installation of public facilities and improvements (other than buildings) when the facilities and improvements are in place and will be retained in the same use without change in size or capacity of more than 20 percent. Examples of this type of activity include replacement of water and sewer lines, reconstruction of curbs and sidewalks, street repaving [58.35(a)(1)].
- Special projects directed to the removal of material and architectural barriers that restrict the mobility of and accessibility to elderly and handicapped persons [58.35(a)(2)].
- Rehabilitation of buildings and improvements for residential use (with one to four units), where the density is not increased beyond four units, the land use is not changed, and the footprint of the building isn't increased in a floodplain or in a wetland [58.35(a)(3)(i)].
- Rehabilitation of multifamily residential buildings (with five or more units), when the following conditions are met: a) unit density is not changed more than 20 percent, b) the project does not involve changes in land use from residential to non-residential; and c) the estimated cost of rehabilitation is less than 75 percent of the total estimated cost of replacement after rehabilitation [58.35(a)(3)(ii)].
- Rehabilitation of non-residential structures, including commercial, industrial, and public buildings when the following conditions are met: a) the facilities and improvements are in place and will not be changed in size or capacity by more than 20 percent, and b) the activity does not involve a change in land use, such as from non-residential to residential, commercial to industrial or from one industrial use to another [58.35(a)(3)(iii)].
- An individual action on up to four dwelling units [not including rehabilitation (see 58.35(a)(3)(i) above)] where there is a maximum of four units on any one site. The units can be four one-unit buildings or one four-unit building or any combination in between [58.35(a)(4)(i)].
- Acquisition (including leasing) or disposition of an existing structure, equity loans on an existing structure, or acquisition (including leasing) of vacant land provided that the structure or land acquired, financed or disposed of will be retained for the same use [58.35(a)(5)].
- Any combination of the above activities [58.35(a)(6)].

Form 2-4
NEPA Classification Checklist

CATEGORICALLY EXCLUDED ACTIVITIES [24 CFR 58.35(b)]

*Activities in this section require compliance with related laws and authorities at 24 CFR 58.6 only**

Select only one of the following:

- Tenant-based rental assistance [58.35(b)(1)].
- Supportive services including, but not limited to, health care, housing services, permanent housing placement, day care, nutritional services, short-term payments for rent/mortgage/utility costs, and assistance in gaining access to local, state and federal government benefits and services [58.35(b)(2)].
- Operating costs including maintenance, equipment, supplies, staff training, staff recruitment, security, operation, utilities, furnishings and other incidental costs [58.35(b)(3)].
- Economic development activities, including but not limited to, equipment purchase, inventory financing, interest subsidy, operating expenses and similar costs not associated with construction or expansion of existing operations [58.35(b)(4)].
- Activities to assist homebuyers to purchase existing dwelling units or dwelling units under construction**, including closing costs and down payment assistance, interest buy downs, and similar activities that result in the transfer of title [58.35(b)(5)].
- Affordable housing pre-development costs including legal, consulting, developer and other costs related to obtaining site options, project financing, administrative costs and fees for loan commitments, zoning approvals, and other related activities which do not have a physical impact [58.35(b)(6)].
- Approval of supplemental assistance (including insurance or guarantee) to a project previously approved under this part, if the approval is made by the same responsible entity that conducted the environmental review on the original project and re-evaluation of the environmental finding is not required under 58.47 [58.35(b)(7)].

*If a responsible entity determines that an activity or project identified above, because of extraordinary circumstances or conditions at or affecting the location of the activity or project may have a significant environmental effect, an environmental assessment must be prepared and a determination of significance made.

**This exclusion applies only to financial assistance for purchase of existing for-sale homes or homes under construction. Homebuyer assistance for units not under construction is classified as Categorical Excluded. In all cases, for this exclusion to apply, the prospective buyer must have discretion regarding selection of properties within the target area.

Categorically Excluded Subject to Section 58.5
Pursuant to 24 CFR 58.35(a)**

Project Information

Project Name & CDBG No.: Village of Wellsville Wastewater Treatment Plant Improvements Project - 1225PR173-19

Responsible Entity: Village of Wellsville

Grant Recipient: Village of Wellsville

State/Local Identifier: Village of Wellsville, 23 North Main Street Wellsville, New York 14895

Preparer: Village of Wellsville and MRB Group

Certifying Officer Name and Title: William D. Whitfield, Director of Public Works, Village of Wellsville

Consultant (if applicable): MRB Group Engineering, Architecture & Surveying, D.P.C.

Direct Comments to: William D. Whitfield, Director of Public Works, Village of Wellsville

Project Location:

200 Bolivar Road, Wellsville, New York (WWTP Parcel)

Description of the Proposed Project [24 CFR 50.12 & 58.32; 40 CFR 1508.25]:

The project includes improvements to the existing Wastewater Treatment Plant (WWTP) to address recent changes to its State Pollution Discharge Elimination System (SPDES) permit. The WWTP currently treats influent flow from the Village and accepts and processes leachate from local landfills. The current changes to the SPDES permit have a direct effect on the capacity of the WWTP and its ability to treat the combined domestic and leachate loading. The project improvements will help upgrade the WWTP to provide more effective and efficient treatment capabilities to treat present and future flows and loadings from both wastewater sources. The project includes: replacing trickling filter media and equipment, replacing recirculation pumps and systems, installation of trickling filter covers, construction of a new leachate storage and discharge facility, inflow and infiltration improvements, new influent screen, new effluent disinfection system, final clarifier improvements, etc.

Level of Environmental Review Determination:

Categorically Excluded per 24 CFR 58.35(a), and subject to laws and authorities at §58.5:

Funding Information

Grant Number	Federal/State/Other Program	Funding Amount
1225PR173-19	NYS CDBG	\$1,000,000.00
	NYS WQIP	\$720,000.00

Estimated Total HUD Funded Amount: \$1,000,000.00

Estimated Total Project Cost (HUD and non-HUD funds) [24 CFR 58.32(d)]: \$1,720,000.00

Compliance with 24 CFR 50.4, 58.5, and 58.6 Laws and Authorities

Record below the compliance or conformance determinations for each statute, executive order, or regulation. Provide credible, traceable, and supportive source documentation for each authority. Where applicable, complete the necessary reviews or consultations and obtain or note applicable permits of approvals. Clearly note citations, dates/names/titles of contacts, and page references. Attach additional documentation as appropriate.

Compliance Factors: Statutes, Executive Orders, and Regulations listed at 24 CFR §58.5 and §58.6	Are formal compliance steps or mitigation required?	Compliance determinations
STATUTES, EXECUTIVE ORDERS, AND REGULATIONS LISTED AT 24 CFR 50.4 and 58.6		
Airport Hazards 24 CFR Part 51 Subpart D	Yes No <input type="checkbox"/> <input checked="" type="checkbox"/>	No airports within or adjacent to the project area.
Coastal Barrier Resources Coastal Barrier Resources Act, as amended by the Coastal Barrier Improvement Act of 1990 [16 USC 3501]	Yes No <input type="checkbox"/> <input checked="" type="checkbox"/>	No identified Coastal Barriers within or adjacent to the proposed project area.
Flood Insurance Flood Disaster Protection Act of 1973 and National Flood Insurance Reform Act of 1994 [42 USC 4001-4128 and 42 USC 5154a]	Yes No <input checked="" type="checkbox"/> <input type="checkbox"/>	A portion of the project will be constructed within a designated floodway and the 100 year floodplain. Appropriate drainage measures will be installed during construction. FEMA Flood maps are attached.
Clean Air Clean Air Act, as amended, particularly section 176(c) & (d); 40 CFR Parts 6, 51, 93	Yes No <input type="checkbox"/> <input checked="" type="checkbox"/>	This project includes WWTP upgrades; no impacts are anticipated.

Sole Source Aquifers Safe Drinking Water Act of 1974, as amended, particularly section 1424(e); 40 CFR Part 149	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	The project does not involve activities that would impact water sources and does not cross or impact identified aquifers.
Wetlands Protection Executive Order 11990, particularly sections 2 and 5	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	No work is proposed to the adjacent stream or embankments.
Wild and Scenic Rivers Wild and Scenic Rivers Act of 1968, particularly section 7(b) and (c)	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	The proposed project is not located within one mile of listed wild or scenic river.
ENVIRONMENTAL JUSTICE		
Environmental Justice Executive Order 12898	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	Public utility improvements will have no impacts on minority or low-income communities.

STATE OR LOCAL STATUTES (to be added by Responsible Entity)		
State Historic Preservation Office (SHPO) Section 14.09 of the New York State Historic Preservation Act	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	A "No Impact" letter was provided on the behalf of SHPO, dated January 6, 2017.
State Environmental Quality Review Act (SEQRA) 6 NYCRR Part 617	Yes <input checked="" type="checkbox"/> No <input type="checkbox"/>	SEQR was completed for this project and a negative declaration was issued at the January 16, 2017 Village Board of Trustees Meeting.
Coastal Zone Management Act (CZMA) 19 NYCRR Part 600	Yes <input type="checkbox"/> No <input checked="" type="checkbox"/>	No Coastal Zones or Waterfront Area are within the project area.
	Yes <input type="checkbox"/> No <input type="checkbox"/>	

Field Inspection (Date and completed by): 2/5/2020 - Shaun R. Logue, Senior Planning Associate

Summary of Findings and Conclusions:

The environmental review finds that the federal action of releasing funding to aid the proposed project will not have a significant adverse impact on the quality of the human environment. Upon completion of the environmental review, the proposed project is found to be in compliance with the federal laws and authorities listed at 24 CFR 58.35.

Mitigation Measures and Conditions [40 CFR 1505.2(c)]

Summarize below all mitigation measures adopted by the Responsible Entity to reduce, avoid, or eliminate adverse environmental impacts and to avoid non-compliance or non-conformance with the above-listed authorities and factors. These measures/conditions must be incorporated into project contracts, development agreements, and other relevant documents. The staff responsible for implementing and monitoring mitigation measures should be clearly identified in the mitigation plan.

Law, Authority, or Factor	Mitigation Measure

Determination:

This categorically excluded activity/project converts to **EXEMPT** per Section 58.34(a)(12), because it does not require any mitigation for compliance with any listed statutes or authorities, nor requires any formal permit or license; **Funds may be committed and drawn down after certification of this part** for this (now) EXEMPT project;

OR

This categorically excluded activity/project cannot convert to Exempt status because one or more statutes or authorities listed at Section 58.5 requires formal consultation or mitigation. Complete consultation/mitigation protocol requirements, **publish NOI/RROF and obtain "Authority to Use Grant Funds"** (HUD 7015.16) per Section 58.70 and 58.71 before committing or drawing down any funds;

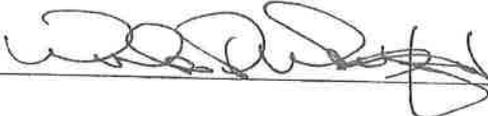

OR

This project is not categorically excluded OR, if originally categorically excluded, is now subject to a full Environmental Assessment according to Part 58 Subpart E due to extraordinary circumstances (Section 58.35(c)).

FORM 1-3

REQUEST FOR RELEASE OF FUNDS AND CERTIFICATION

This form is to be used by Responsible Entities and Recipients (as defined in 24 CFR 58.2) when requesting the release of funds, and requesting the authority to use such funds, for the Community Development Block Grant Program, as identified by statutes that provide for the assumption of the environmental review responsibility by units of general local government and states. (Form 1-3 cannot be authorized or dated by the Certifying Officer until the end of the comment period)

Part 1. Program Description and Request for Release of Funds

1. Name of Recipient Village of Wellsville	2. Project Number 1225PR173-19
3. Recipient's Address 23 North Main Street Wellsville, New York 14895	4. Name and Address of Responsible Party (If different than Recipient)
5. For information about this request, contact (name & phone number) William D. Whitfield Director of Public Works (585) 593-1121	6. OMB Catalog Number 14.228
7. Date of Request/Certification Cannot be dated before the end of the comment period	OFFICE USE ONLY 8. Release of Funds Date

The Recipient(s) of assistance under the program(s) listed above requests the release of funds and removal of environmental grant conditions governing the use of the assistance for the following:

9. Program Activity(ies)/Project Name(s) Village of Wellsville Wastewater Treatment Plant Improvements Project	10. Location (street address, city, county, state) 152 Bolivar Road (WWTP Parcel)
--	--

11. Program Activity/Project Description
--

Part 2. Environmental Certification (to be completed by responsible party)

With reference to the above Program Activity(ies)/Project(s), I, the undersigned officer of the responsible entity certify that:

1. The responsible entity has fully carried out its responsibilities for environmental review, decision-making and action pertaining to the project(s) named above.
2. The responsible entity has assumed responsibility for and complied with and will continue to comply with, the National Environmental Policy Act of 1969, as amended, and the environmental procedure, permit requirements and statutory obligations of the laws cited in 25CFR 58.5; and also agrees to comply with the authorities in 24 CFR 58.6 and applicable state and local laws.
3. After considering the type and degree of environmental effects identified by the environmental review completed for the proposed project described in Part I of this request, I have found that the proposal
 did did not require the preparation and dissemination of an environmental impact statement.
4. The responsible entity has disseminated and/or published in the manner prescribed by 24 CFR 58.43 and 58.55 a *notice to the public in accordance with 24 CFR 58.70 and as evidenced by the attached copy (copies) or evidence of posting and mailing procedures.
5. The dates for all statutory and regulatory time periods for review, comment or other action are in compliance with procedures and requirements of 24 CFR Part 58.
6. In accordance with 24 CFR 58.71(b), the responsible entity will advise the Recipient (if different from the responsible entity) of any special environmental conditions that must be adhered to in carrying out the project.

As the duly designated official of the responsible entity, I also certify that:

7. I am authorized to and do consent to assume the status of Responsible Federal Official under the National Environmental Policy Act of 1969 and each provision of law designated in the 24 CFR 58.5 list of NEPA related authorities insofar as the provisions of these laws apply to the State's responsibilities for environmental review, decision-making and action that have been assumed by the responsible entity.
8. I am authorized to and do accept, on behalf of the Recipient personality, the jurisdiction of the Federal courts for the enforcement of all these responsibilities, in my capacity as Certifying Officer of the Responsible Entity.

Title of Authorized Officer

Date Signed

NOTICE OF INTENT TO REQUEST RELEASE OF FUNDS (NOIRROF)

June 5, 2020

Village of Wellsville
23 North Main Street
Wellsville, New York 14895
(585) 596-1750

On or about **Friday, June 26, 2020** the Village of Wellsville will submit a request to the Office of Community Renewal for the release of CDBG funds under Title 1 of the Housing and Community Development Act of 1974, as amended, to undertake a project known as Village of Wellsville Wastewater Treatment Plant (WWTP) Improvements Project for the purpose of making various improvements to the WWTP. The project will be funded by a \$1,000,000.00 grant, funded by the CDBG funds.

The activities proposed are categorically excluded under HUD regulations at 24 CFR part 58 from national environmental policy act requirements. An Environmental Review Record (ERR) that documents the environmental determinations for this project is on file at the offices of the Village of Wellsville, 23 North Main Street, New York 14895 and may be examined or copied weekday's 8:00 A.M to 4:30 P.M.

PUBLIC COMMENTS

Any individual, group, or agency may submit written comments on the ERR to the Village of Wellsville Department of Public Works. All comments received by **Thursday, June 25, 2020** (at least 7 days) will be considered by the Village of Wellsville prior to submission of a request for release of funds.

RELEASE OF FUNDS

The Village of Wellsville certifies to the Office of Community Renewal that William D. Whitfield in his capacity as Director of Public Works consents to accept the jurisdiction of the Federal Courts if an action is brought to enforce responsibilities in relation to the environmental review process and that these responsibilities have been satisfied. The Office of Community Renewal's acceptance of the certification satisfies its responsibilities under NEPA and allows the Village of Wellsville to use Program funds.

OBJECTIONS TO RELEASE OF FUNDS

The Office of Community Renewal will accept objections to its release of fund and the Village of Wellsville's certification for a period of fifteen days following the anticipated submission date or its actual receipt of the request (whichever is later) only if they are on one of the following bases: (a) the certification was not executed by the Certifying Officer of the Village of Wellsville; (b) the Village of Wellsville has omitted a step or failed to make a decision or finding required by HUD regulations at 24 CFR part 58; (c) the grant recipient or other participants in the development process have committed funds, incurred costs or undertaken activities not authorized by 24 CFR Part 58 before approval of a release of funds by the Office of Community Renewal; or (d) another Federal agency acting pursuant to 40 CFR Part 1504 has submitted a written finding that the project is unsatisfactory from the standpoint of environmental quality. Objections must be prepared and submitted in accordance with the required procedures (24 CFR Part 58, Sec. 58.76) and shall be addressed to Christian Leo, Vice President, at Office of Community Renewal, Hampton Plaza, 38-40 State Street, 4th Floor, Albany, NY 12207. Potential objectors should contact the Office of Community Renewal to verify the actual last day of the objection period.

William D. Whitfield, Director of Public Works, Village of Wellsville

Re: DEC
Wellsville Wastewater Treatment Plant Improvements
200 Bolivar Road, Wellsville, NY 14895
16PR08706

Dear Mr. Logue:

Thank you for requesting the comments of the Office of Parks, Recreation and Historic Preservation (OPRHP). We have reviewed the project in accordance with the New York State Historic Preservation Act of 1980 (Section 14.09 of the New York Parks, Recreation and Historic Preservation Law). These comments are those of the OPRHP and relate only to Historic/Cultural resources. They do not include potential environmental impacts to New York State Parkland that may be involved in or near your project. Such impacts must be considered as part of the environmental review of the project pursuant to the State Environmental Quality Review Act (New York Environmental Conservation Law Article 8) and its implementing regulations (6 NYCRR Part 617).

Based upon this review, it is the New York State Office of Parks, Recreation and Historic Preservation's opinion that your project will have no impact on archaeological and/or historic resources listed in or eligible for the New York State and National Registers of Historic Places.

If further correspondence is required regarding this project, please be sure to refer to the OPRHP Project Review (PR) number noted above.

Sincerely,

Michael F. Lynch, P.E., AIA

**RE: VILLAGE OF WELLSVILLE – WASTEWATER TREATMENT IMPROVEMENT PROJECT
VILLAGE OF WELLSVILLE, ALLEGANY COUNTY, NY 14895
ENVIRONMENTAL REVIEW
MRB PROJECT NO. 2314.16002.000**

Dr. Somers:

We are writing on behalf of the Village of Wellsville to obtain information to complete the Environmental Review of this project. We respectfully request a review of the project and the supporting information to determine whether or not the project is located within an Agricultural District. We offer the following project description and attachment to assist in your review:

The Village of Wellsville is proposing a project that includes improvements to the existing Wastewater Treatment Plant (WWTP) to address recent changes to its State Pollution Discharge Elimination System (SPDES) permit. The WWTP currently treats influent flow from the Village and accepts and processes leachate from local landfills. The current changes to the SPDES permit have a direct effect on the capacity of the WWTP and its ability to treat the combined domestic and leachate loading. The project improvements will help upgrade the WWTP to provide more effective and efficient treatment capabilities to treat present and future flows and loadings from both wastewater sources. The project includes: replacing trickling filter media and equipment, replacing recirculation pumps and systems, installation of trickling filter covers, construction of a new leachate storage and discharge facility, inflow and infiltration improvements, new influent screen, new effluent disinfection system, final clarifier improvements, solids de-watering improvements, new SCADA system, and other minor and ancillary improvements associated with upgrading the WWTP.

The project site is the existing WWTP at 200 Bolivar Road, Wellsville, NY 14895 in Allegany County. Its geographic coordinates are approximately 42.129057° N, 77.963700° W. Please note that the site has been previously disturbed during the construction of the original WWTP and subsequent upgrades.

**RE: VILLAGE OF WELLSVILLE – WASTEWATER TREATMENT IMPROVEMENT PROJECT
VILLAGE OF WELLSVILLE, ALLEGANY COUNTY, NY 14895
ENVIRONMENTAL REVIEW
MRB PROJECT NO. 2314.16002.000**

To Whom This May Concern,

We are writing on behalf of the Village of Wellsville to obtain information to complete the Environmental Review of this project. We respectfully request a review of the project and the supporting information to determine if Federal Wetlands will be impacted by this project. Please note that there is no construction proposed within or disturbance to identified Federal Wetlands (attached). We offer the following project description and attachments to assist in your review:

The Village of Wellsville is proposing a project that includes improvements to the existing Wastewater Treatment Plant (WWTP) to address recent changes to its State Pollution Discharge Elimination System (SPDES) permit. The WWTP currently treats influent flow from the Village and accepts and processes leachate from local landfills. The current changes to the SPDES permit have a direct effect on the capacity of the WWTP and its ability to treat the combined domestic and leachate loading. The project improvements will help upgrade the WWTP to provide more effective and efficient treatment capabilities to treat present and future flows and loadings from both wastewater sources. The project includes: replacing trickling filter media and equipment, replacing recirculation pumps and systems, installation of trickling filter covers, construction of a new leachate storage and discharge facility, inflow and infiltration improvements, new influent screen, new effluent disinfection system, final clarifier improvements, solids de-watering improvements, new SCADA system, and other minor and ancillary improvements associated with upgrading the WWTP.

The project site is the existing WWTP at 200 Bolivar Road, Wellsville, NY 14895 in Allegany County. Its geographic coordinates are approximately 42.129057° N, 77.963700° W. Please note that the site has been previously disturbed during the construction of the original WWTP and subsequent upgrades.

Sent: Thursday, March 02, 2017 12:52 PM
To: Brabant, Lance
Subject: Village of Wellsville - Wastewater Treatment Improvement Project DA Processing No. 2017-00167

Dear Mr. Brabant:

I have reviewed the information you sent regarding the proposed upgrades to the Wellsville, NY Wastewater Treatment Facility. According to your letter, the work will primarily consist of upgrades to existing buildings/equipment, with only minor new ground-disturbance (new leachate storage and discharge facility).

Under Section 404 of the Clean Water Act, the Corps of Engineers regulates activities that result in a discharge of dredged or fill material into waters of the US, including wetlands. Absent an on-site inspection or delineation there is no way to determine definitively whether wetlands/waters are present at a specific site. However, there are some remote resources that we use to determine if wetlands or waters may be present at a site. These include aerial photographs, USDA soil survey maps, National Wetland Inventory Maps and USGS quadrangle maps. None of these resources indicates that wetlands/waters are likely to exist within the areas proposed for disturbance by the project.

If the project does not result in a discharge of dredged or fill material into a regulated water of the US, no permit is required from the Corps of Engineers for the work.

I hope this is helpful. Please feel free to contact me if you have further questions or wish to discuss.

**RE: VILLAGE OF WELLSVILLE – WASTEWATER TREATMENT IMPROVEMENT PROJECT
VILLAGE OF WELLSVILLE, ALLEGANY COUNTY, NY 14895
ENVIRONMENTAL REVIEW
MRB PROJECT NO. 2314.16002.000**

To Whom This May Concern,

We are writing on behalf of the Village of Wellsville to obtain information to complete the Environmental Review of this project. We respectfully request a review of the project and the supporting information to determine if (a) State Wetlands or (b) the habitat of threatened or endangered species will be impacted by this project. Please note that there is no construction proposed within, or disturbance to, identified State Wetlands (attached), and our initial review of federally-listed threatened and endangered species lists for the Allegany County suggests that the project does not impact the habitats of these species. Moreover, the NYSDEC Environmental Resource Mapper shows that the project site does not fall within any areas designated to contain rare plants or rare animals. We offer the following project description and attachments to assist in your review:

The Village of Wellsville is proposing a project that includes improvements to the existing Wastewater Treatment Plant (WWTP) to address recent changes to its State Pollution Discharge Elimination System (SPDES) permit. The WWTP currently treats influent flow from the Village and accepts and processes leachate from local landfills. The current changes to the SPDES permit have a direct effect on the capacity of the WWTP and its ability to treat the combined domestic and leachate loading. The project improvements will help upgrade the WWTP to provide more effective and efficient treatment capabilities to treat present and future flows and loadings from both wastewater sources. The project includes: replacing trickling filter media and equipment, replacing recirculation pumps and systems, installation of trickling filter covers, construction of a new leachate storage and discharge facility, inflow and infiltration improvements, new influent screen, new effluent disinfection system, final clarifier improvements, solids de-watering improvements, new SCADA system, and other minor and ancillary improvements associated with upgrading the upgrading the WWTP.

The project site is the existing WWTP at 200 Bolivar Road, Wellsville, NY 14895 in Allegany County. Its geographic coordinates are approximately 42.129057° N, 77.963700° W. Please note that the site has been previously disturbed during the construction of the original WWTP and subsequent upgrades.

Honorable Randy Shayler
Village of Wellsville
Village Board of Trustees
P.O. Box 591
Wellsville, New York 14895

Dear Mayor Shayler:

SEQR LEAD AGENCY SOLICITATION WASTEWATER TREATMENT PLANT IMPROVEMENTS VILLAGE OF WELLSVILLE, ALLEGANY COUNTY

In response to the Village of Wellsville's SEQR Lead Agency solicitation letter for the above-noted project, please be advised of the following:

1. A portion of the overall project area is located within a 100-year floodplain, according to the Federal Emergency Management Agency's Map No. 360036 0001B. If work is proposed in this area, the project must comply with all local laws/ordinances/standards relating to development within floodplains, including a possible Floodplain Development Permit.
2. Since it is anticipated that this project will be funded through the Clean Water State Revolving Fund administered by the NYS Environmental Facilities Corporation, State Environmental Review Process (SERP) requirements must be satisfied. Although the site does not appear to be within an archaeologically sensitive area, the Village of Wellsville must confirm this with the New York State Office of Parks, Recreation and Historic Preservation (OPRHP). This office must receive an OPRHP concurrence letter before SERP certification can be obtained. They can be contacted at 518/237-8643 with any questions.

We concur that the Village of Wellsville should act as SEQR Lead Agency, as the environmental impacts of the proposal are primarily of local significance.

Thank you for providing this office the opportunity to review the proposed project. If you have any questions, please feel free to contact Mr. Mark Passuite or me at 716/851-7165.

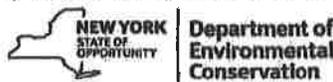

Respectfully,

David S. Denk
Regional Permit Administrator

VILLAGE OF WELLSVILLE, ALLEGANY COUNTY, NY 14895
ENVIRONMENTAL REVIEW
MRB PROJECT NO. 2314.16002.000**

Dear Ms. Pietrusiak:

We respectfully request a review of the project and the supporting information to determine if any rare species or habitats are within our project area that may be impacted by the project. An initial search using the NYSDEC Environmental Resource Mapper online shows that the project site does not fall within any areas designated to contain rare plants or rare animals. Nevertheless, we offer the following project description and attachments to assist in your review.

The Village of Wellsville is proposing a project that includes improvements to the existing Wastewater Treatment Plant (WWTP) to address recent changes to its State Pollution Discharge Elimination System (SPDES) permit. The WWTP currently treats influent flow from the Village and accepts and processes leachate from local landfills. The current changes to the SPDES permit have a direct effect on the capacity of the WWTP and its ability to treat the combined domestic and leachate loading. The project improvements will help upgrade the WWTP to provide more effective and efficient treatment capabilities to treat present and future flows and loadings from both wastewater sources. The project includes: replacing trickling filter media and equipment, replacing recirculation pumps and systems, installation of trickling filter covers, construction of a new leachate storage and discharge facility, inflow and infiltration improvements, new influent screen, new effluent disinfection system, final clarifier improvements, solids de-watering improvements, new SCADA system, and other minor and ancillary improvements associated with upgrading the upgrading the WWTP.

The project site is the existing WWTP at 200 Bolivar Road, Wellsville, NY 14895 in Allegany County. Its geographic coordinates are approximately 42.129057° N, 77.963700° W.

Please note that the site has been previously disturbed during the construction of the original WWTP and subsequent upgrades.

Re: Village of Wellsville Wastewater Treatment Plant Improvement Project (MRB No. 2314.16002.000)
County: Allegany Town/City: Wellsville

Dear Mr. Brabant:

In response to your recent request, we have reviewed the New York Natural Heritage Program database with respect to the above project.

We have no records of rare or state-listed animals or plants, or significant natural communities at the project site or in its immediate vicinity.

The absence of data does not necessarily mean that rare or state-listed species, significant natural communities, or other significant habitats do not exist on or adjacent to the proposed site. Rather, our files currently do not contain information that indicates their presence. For most sites, comprehensive field surveys have not been conducted. We cannot provide a definitive statement on the presence or absence of all rare or state-listed species or significant natural communities. Depending on the nature of the project and the conditions at the project site, further information from on-site surveys or other resources may be required to fully assess impacts on biological resources.

This response applies only to known occurrences of rare or state-listed animals and plants, significant natural communities, and other significant habitats maintained in the Natural Heritage database. Your project may require additional review or permits; for information regarding other permits that may be required under state law for regulated areas or activities (e.g., regulated wetlands), please contact the NYS DEC Region 9 Office, Division of Environmental Permits, as listed at www.dec.ny.gov/about/39381.html.

Sincerely,

Nicholas Conrad
Information Resources Coordinator
New York Natural Heritage Program

**RE: VILLAGE OF WELLSVILLE – WASTEWATER TREATMENT IMPROVEMENT PROJECT
VILLAGE OF WELLSVILLE, ALLEGANY COUNTY, NY 14895
ENVIRONMENTAL REVIEW
MRB PROJECT No. 2314.16002.000**

Dear Ms. Niver,

We have reviewed the USFWS website for information on threatened and endangered species in Allegany County. We have also contacted the NYSDEC Natural Heritage Program and the NYSDEC Region 8 offices for information on State-listed threatened and endangered species. The results of these evaluations are presented below, following additional background information on the project.

The Village of Wellsville is proposing a project that includes improvements to the existing Wastewater Treatment Plant (WWTP) to address recent changes to its State Pollution Discharge Elimination System (SPDES) permit. The WWTP currently treats influent flow from the Village and accepts and processes leachate from local landfills. The current changes to the SPDES permit have a direct effect on the capacity of the WWTP and its ability to treat the combined domestic and leachate loading. The project improvements will help upgrade the WWTP to provide more effective and efficient treatment capabilities to treat present and future flows and loadings from both wastewater sources. The project includes: replacing trickling filter media and equipment, replacing recirculation pumps and systems, installation of trickling filter covers, construction of a new leachate storage and discharge facility, inflow and infiltration improvements, new influent screen, new effluent disinfection system, final clarifier improvements, solids de-watering improvements, new SCADA system, and other minor and ancillary improvements associated with upgrading the upgrading the WWTP.

The project site is the existing WWTP at 200 Bolivar Road, Wellsville, NY 14895 in Allegany County. Its geographic coordinates are approximately 42.129057° N, 77.963700° W. Please note that the site has been previously disturbed during the construction of the original WWTP and subsequent upgrades.

Review of USFWS Website:

Information is presented below on the threatened and endangered species (totaling one species) identified for Ontario County:

- The Northern Long-Eared Bat (*Myotis septentrionalis*) is a federally-listed threatened species. Its habitat is comprised of forested areas where it roosts in live and dead trees, forested hillsides and ridges, and caves and mines. Given the project location, the project is not anticipated to disturb this species' habitat.

Coordination with NYSDEC:

On or around February 7, 2017 a letter was sent to the New York State Department of Environmental Conservation (NYSDEC) Natural Heritage Program (Albany) requesting additional information regarding threatened and endangered species within the project area. An initial search using the NYSDEC Environmental Resource Mapper online shows that the project site does not fall within any areas designated to contain rare plants or rare animals.

On behalf of the Village of Wellsville, we are requesting written concurrence from your office that the proposed project **will not adversely affect** threatened or endangered species in the project area. Should you have any questions or need additional information, please do not hesitate to call. Thank you.

Sincerely,

A handwritten signature in black ink that reads "Lance S. Brabant".

Endangered species

This resource list is for informational purposes only and should not be used for planning or analyzing project level impacts.

Section 7 of the Endangered Species Act requires Federal agencies to “request of the Secretary information whether any species which is listed or proposed to be listed may be present in the area of such proposed action” for any project that is conducted, permitted, funded, or licensed by any Federal agency.

A letter from the local office and a species list which fulfills this requirement can only be obtained by requesting an official species list either from the Regulatory Review section in IPaC or from the local field office directly.

For project evaluations that require USFWS concurrence/review, please return to the IPaC website and request an official species list by creating a project and making a request from the Regulatory Review section.

Listed species

¹ are managed by the Endangered Species Program of the U.S. Fish and Wildlife Service.

1. Species listed under the Endangered Species Act are threatened or endangered; IPaC also shows species that are candidates, or proposed, for listing. See the listing status page for more information.

The following species are potentially affected by activities in this location:

Mammals

NAME	STATUS
Northern Long-eared Bat <i>Myotis septentrionalis</i> No critical habitat has been designated for this species. http://ecos.fws.gov/ecp/species/9045	Threatened

Critical habitats

Potential effects to critical habitat(s) in this location must be analyzed along with the endangered species themselves.

THERE ARE NO CRITICAL HABITATS AT THIS LOCATION.

Migratory birds

Birds are protected under the Migratory Bird Treaty Act

¹ and the Bald and Golden Eagle Protection Act².

Any activity that results in the take (to harass, harm, pursue, hunt, shoot, wound, kill, trap, capture, or collect, or to attempt to engage in any such conduct) of migratory birds or eagles is prohibited unless authorized by the U.S. Fish and Wildlife Service

³. There are no provisions for allowing the take of migratory birds that are unintentionally killed or injured.

Any person or organization who plans or conducts activities that may result in the take of migratory birds is responsible for complying with the appropriate regulations and implementing appropriate conservation measures.

1. The Migratory Birds Treaty Act of 1918.
2. The Bald and Golden Eagle Protection Act of 1940.
3. 50 C.F.R. Sec. 10.12 and 16 U.S.C. Sec. 668(a)

Facilities

Wildlife refuges

Any activity proposed on National Wildlife Refuge lands must undergo a 'Compatibility Determination' conducted by the Refuge. Please contact the individual Refuges to discuss any questions or concerns.

THERE ARE NO REFUGES AT THIS LOCATION.

Fish hatcheries

THERE ARE NO FISH HATCHERIES AT THIS LOCATION.

Wetlands in the National Wetlands Inventory

Impacts to NWI wetlands and other aquatic habitats may be subject to regulation under Section 404 of the Clean Water Act, or other State/Federal statutes.

For more information please contact the Regulatory Program of the local U.S. Army Corps of Engineers District.

DATA LIMITATIONS

The Service's objective of mapping wetlands and deepwater habitats is to produce reconnaissance level information on the location, type and size of these resources. The maps are prepared from the analysis of high altitude imagery. Wetlands are identified based on vegetation, visible hydrology and geography. A margin of error is inherent in the use of imagery;

thus, detailed on-the-ground inspection of any particular site may result in revision of the wetland boundaries or classification established through image analysis.

The accuracy of image interpretation depends on the quality of the imagery, the experience of the image analysts, the amount and quality of the collateral data and the amount of ground truth verification work conducted. Metadata should be consulted to determine the date of the source imagery used and any mapping problems.

Wetlands or other mapped features may have changed since the date of the imagery or field work. There may be occasional differences in polygon boundaries or classifications between the information depicted on the map and the actual conditions on site.

DATA EXCLUSIONS

Certain wetland habitats are excluded from the National mapping program because of the limitations of aerial imagery as the primary data source used to detect wetlands. These habitats include seagrasses or submerged aquatic vegetation that are found in the intertidal and subtidal zones of estuaries and nearshore coastal waters. Some deepwater reef communities (coral or tubercid worm reefs) have also been excluded from the inventory. These habitats, because of their depth, go undetected by aerial imagery.

DATA PRECAUTIONS

Federal, state, and local regulatory agencies with jurisdiction over wetlands may define and describe wetlands in a different manner than that used in this inventory. There is no attempt, in either the design or products of this inventory, to define the limits of proprietary jurisdiction of any Federal, state, or local government or to establish the geographical scope of the regulatory programs of government agencies. Persons intending to engage in activities involving modifications within or adjacent to wetland areas should seek the advice of appropriate federal, state, or local agencies concerning specified agency regulatory programs and proprietary jurisdictions that may affect such activities.

THERE ARE NO KNOWN WETLANDS AT THIS LOCATION.

VILLAGE OF WELLSVILLE, ALLEGANY COUNTY, NY 14895
ENVIRONMENTAL REVIEW
MRB PROJECT No. 2314.16002.000**

Dear Ms. Keenan:

We are writing on behalf of the Village of Wellsville for information to complete their Environmental Review of this project. Please note that we do not believe there are any Prime and/or State important soils on or adjacent to the project area; however, we have completed the attached Impact Rating Information Form/Checklist for your review. We hope this information is sufficient for you to provide a determination of no impact/effect. A brief project description to assist in your review of the project is as follows:

The Village of Wellsville is proposing a project that includes improvements to the existing Wastewater Treatment Plant (WWTP) to address recent changes to its State Pollution Discharge Elimination System (SPDES) permit. The WWTP currently treats influent flow from the Village and accepts and processes leachate from local landfills. The current changes to the SPDES permit have a direct effect on the capacity of the WWTP and its ability to treat the combined domestic and leachate loading. The project improvements will help upgrade the WWTP to provide more effective and efficient treatment capabilities to treat present and future flows and loadings from both wastewater sources. The project includes: replacing trickling filter media and equipment, replacing recirculation pumps and systems, installation of trickling filter covers, construction of a new leachate storage and discharge facility, inflow and infiltration improvements, new influent screen, new effluent disinfection system, final clarifier improvements, solids de-watering improvements, new SCADA system, and other minor and ancillary improvements associated with upgrading the upgrading the WWTP.

The project site is the existing WWTP at 200 Bolivar Road, Wellsville, NY 14895 in Allegany County. Its geographic coordinates are approximately 42.129057° N, 77.963700° W.

February 7, 2017

Re: Village of Wellsville Wastewater Treatment Improvement Project
NRCS FPPA review

Mr. Brabant,

I have received the materials with the information needed to complete a Farmland Conversion Impact Rating (NRCS-CPA-106) for the project cited above which is required by USDA Rural Development. After reviewing the documentation it is clear that the project is exempt from the Farmland Protection Policy Act (FPPA) provision.

Although the project may contain soils designated as prime or statewide important for farmland, the project is exempt because you stated it was an upgrade project. "Assistance and actions related to the purchase, maintenance, renovation, or replacement of existing structures are not subject to the Act". Also the area the project occurs in is considered urban development because there are greater than 30 structures in a 40 acre area. Because of those reasons, a NRCS-CPA-106 describing the amount of farmland impacts in the project area is not required for this project.

Please provide this letter of exemption to the agency that is providing federal funding to the project. If you have any questions about this determination please feel free to contact me.

NYS Office of Community Renewal Applicant Tribal Notification Letter

2/14/2020

Maurice John
President, Seneca Nation of Indians
90 Ohi Yoho Way
Salamanca, New York 14779

Subject: Finding of No Historic Properties Affected and No Adverse Effect
Village of Wellsville – Wastewater Treatment Plant Improvements
Project
Village of Wellsville, Allegany County, NY 14895

Dear Mr. John:

The Village of Wellsville is seeking financial assistance from the NYS Community Development Block Grant (CDBG) Grant program for the Village of Wellsville Wastewater Treatment Plant Improvements Project. The project includes improvements to the existing Wastewater Treatment Plant (WWTP) to address recent changes to its State Pollution Discharge Elimination System (SPDES) permit. The WWTP currently treats influent flow from the Village and accepts and processes leachate from local landfills. The current changes to the SPDES permit have a direct effect on the capacity of the WWTP and its ability to treat the combined domestic and leachate loading. The project improvements will help upgrade the WWTP to provide more effective and efficient treatment capabilities to treat present and future flows and loadings from both wastewater sources. The project includes: replacing trickling filter media and equipment, replacing recirculation pumps and systems, installation of trickling filter covers, construction of a new leachate storage and discharge facility, inflow and infiltration improvements, new influent screen, new effluent disinfection system, final clarifier improvements, solids dewatering improvements, new SCADA system, and other minor and ancillary improvements associated with upgrading the WWTP. The Village of Wellsville is seeking financial assistance from the New York State CDBG program through NYS Office of Community Renewal (OCR).

If OCR elects to fund this application, it will become an undertaking subject to review under Section 106 of the National Historic Preservation Act, 54 U.S.C. 306108, and its implementing regulations, 36 CFR Part 800. Pursuant to 7 CFR § 1970.5(b)(2) of the regulations, "Environmental Policies and Procedures" (7 CFR Part 1970), OCR has issued a blanket delegation to its applicants to initiate and proceed through Section 106 review. In accordance with this blanket delegation, the Village of Wellsville is initiating Section 106 review on behalf of OCR.

In delegating this authority, OCR is advocating for the direct interaction between its CDBG applicants and Indian tribes. OCR believes this interaction, prior to direct agency involvement, will support and encourage the consideration of impacts to historic properties of importance to Indian tribes earlier in project planning.

The Village of Wellsville proposes that the area of potential effects (APE) for the referenced project consists of improvements to the existing Wastewater Treatment Plant (WWTP) and associated sewer collection system as shown on the enclosed Map and Plan. The geographic scope of the APE will not be final until a determination is made by OCR pursuant to 36 CFR § 800.4(a)(1). The APE does not include any tribal lands as defined pursuant to 36 CFR § 800.16(x).

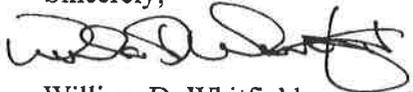

The Village of Wellsville is notifying you about the referenced project because of the possible interest of the Seneca Nation of Indians in Allegany County. Should the Seneca Nation of Indians elect to participate in Section 106 review of the referenced project, please notify me in writing via letter or email as soon as possible at the following addresses – By mail at 200 Bolivar Road, Wellsville, NY 14895 with a copy to MRB Group, DPC, The Culver Road Armory, 145 Culver Road, Suite 160, Rochester, NY 14620 or by email at bill_whitfield@wellsvilleny.com with a copy to lance.brabant@mrbgroup.com.

Please include with your affirmative response, a description of any specific historic properties or important tribal resources in the APE and your recommendations about the effort required to identify additional historic properties which might be affected by the referenced project. The Village of Wellsville will respect the confidentiality of the information which you provide to the fullest extent possible.

If at any time you wish to share your interests, recommendations and concerns directly with OCR, as the agency responsible for conducting Section 106 review, or to request that OCR participate directly in Section 106 review, please notify me at once, preferably via email. However, you may contact OCR directly. If you wish to do so, please submit your request to Ben Mattison, Community Developer, NYS Homes & Community Renewal, Hampton Plaza, 38-40 State Street, 4 South, Albany, New York 12207-2804 or ben.mattison@nyshcr.org.

Please submit your response to me by **Tuesday, March 24, 2020**. During this time period, I will follow-up to ensure your receipt of this notification and to identify any constraints which might delay your timely response. The Village of Wellsville has been advised by OCR to proceed to the next step in Section 106 review if you fail to provide a timely response. Should you have any questions or require additional information, you may contact me by email at bill_whitfield@wellsvilleny.com with a copy to Lance Brabant at lance.brabant@mrbgroup.com.

Sincerely,

William D. Whitfield

MAP INFORMATION

The soil surveys that comprise your AOI were mapped at 1:24,000.

Warning: Soil Map may not be valid at this scale.

Enlargement of maps beyond the scale of mapping can cause misunderstanding of the detail of mapping and accuracy of soil line placement. The maps do not show the small areas of contrasting soils that could have been shown at a more detailed scale.

Please rely on the bar scale on each map sheet for map measurements.

Source of Map: Natural Resources Conservation Service
Web Soil Survey URL: <http://websoilsurvey.nrcs.usda.gov>
Coordinate System: Web Mercator (EPSG:3857)

Maps from the Web Soil Survey are based on the Web Mercator projection, which preserves direction and shape but distorts distance and area. A projection that preserves area, such as the Albers equal-area conic projection, should be used if more accurate calculations of distance or area are required.

This product is generated from the USDA-NRCS certified data as of the version date(s) listed below.

Soil Survey Area: Allegany County Area, New York
Survey Area Data: Version 22, Sep 23, 2016

Soil map units are labeled (as space allows) for map scales 1:50,000 or larger.

Date(s) aerial images were photographed: Apr 15, 2011—May 11, 2011

The orthophoto or other base map on which the soil lines were compiled and digitized probably differs from the background imagery displayed on these maps. As a result, some minor shifting of map unit boundaries may be evident.

Map Unit Legend

Allegheny County Area, New York (NY003)			
Map Unit Symbol	Map Unit Name	Acres in AOI	Percent of AOI
8A	Middlebury silt loam, 0 to 3 percent slopes	4.9	60.8%
Ur	Urban land	3.2	39.2%
W	Water	0.0	0.0%
Totals for Area of Interest		8.1	100.0%

Allegany County Area, New York

8A—Middlebury silt loam, 0 to 3 percent slopes

Map Unit Setting

National map unit symbol: 20fg2
Elevation: 1,140 to 1,800 feet
Mean annual precipitation: 33 to 43 inches
Mean annual air temperature: 45 to 50 degrees F
Frost-free period: 106 to 139 days
Farmland classification: All areas are prime farmland

Map Unit Composition

Middlebury and similar soils: 90 percent
Minor components: 10 percent
Estimates are based on observations, descriptions, and transects of the mapunit.

Description of Middlebury

Setting

Landform: Flood plains
Landform position (two-dimensional): Summit
Landform position (three-dimensional): Tread, talf
Down-slope shape: Concave
Across-slope shape: Convex
Parent material: Loamy alluvium predominantly from areas of shale and sandstone with some lime-bearing material

Typical profile

H1 - 0 to 8 inches: silt loam
H2 - 8 to 30 inches: loam
H3 - 30 to 72 inches: fine sandy loam

Properties and qualities

Slope: 0 to 3 percent
Depth to restrictive feature: More than 80 inches
Natural drainage class: Moderately well drained
Capacity of the most limiting layer to transmit water (Ksat):
Moderately high to high (0.60 to 2.00 in/hr)
Depth to water table: About 18 to 24 inches
Frequency of flooding: Occasional
Frequency of ponding: None
Available water storage in profile: High (about 10.2 inches)

Interpretive groups

Land capability classification (irrigated): None specified
Land capability classification (nonirrigated): 2w
Hydrologic Soil Group: B/D
Hydric soil rating: No

Allegany County Area, New York

Ur—Urban land

Map Unit Setting

National map unit symbol: b273
Elevation: 1,140 to 1,800 feet
Mean annual precipitation: 33 to 43 inches
Mean annual air temperature: 45 to 50 degrees F
Frost-free period: 106 to 139 days
Farmland classification: Not prime farmland

Map Unit Composition

Urban land: 85 percent
Minor components: 15 percent
Estimates are based on observations, descriptions, and transects of the mapunit.

Description of Urban Land

Typical profile

H1 - 0 to 6 inches: cemented material

Interpretive groups

Land capability classification (irrigated): None specified
Land capability classification (nonirrigated): 8s
Hydric soil rating: Unranked

Minor Components

Chenango

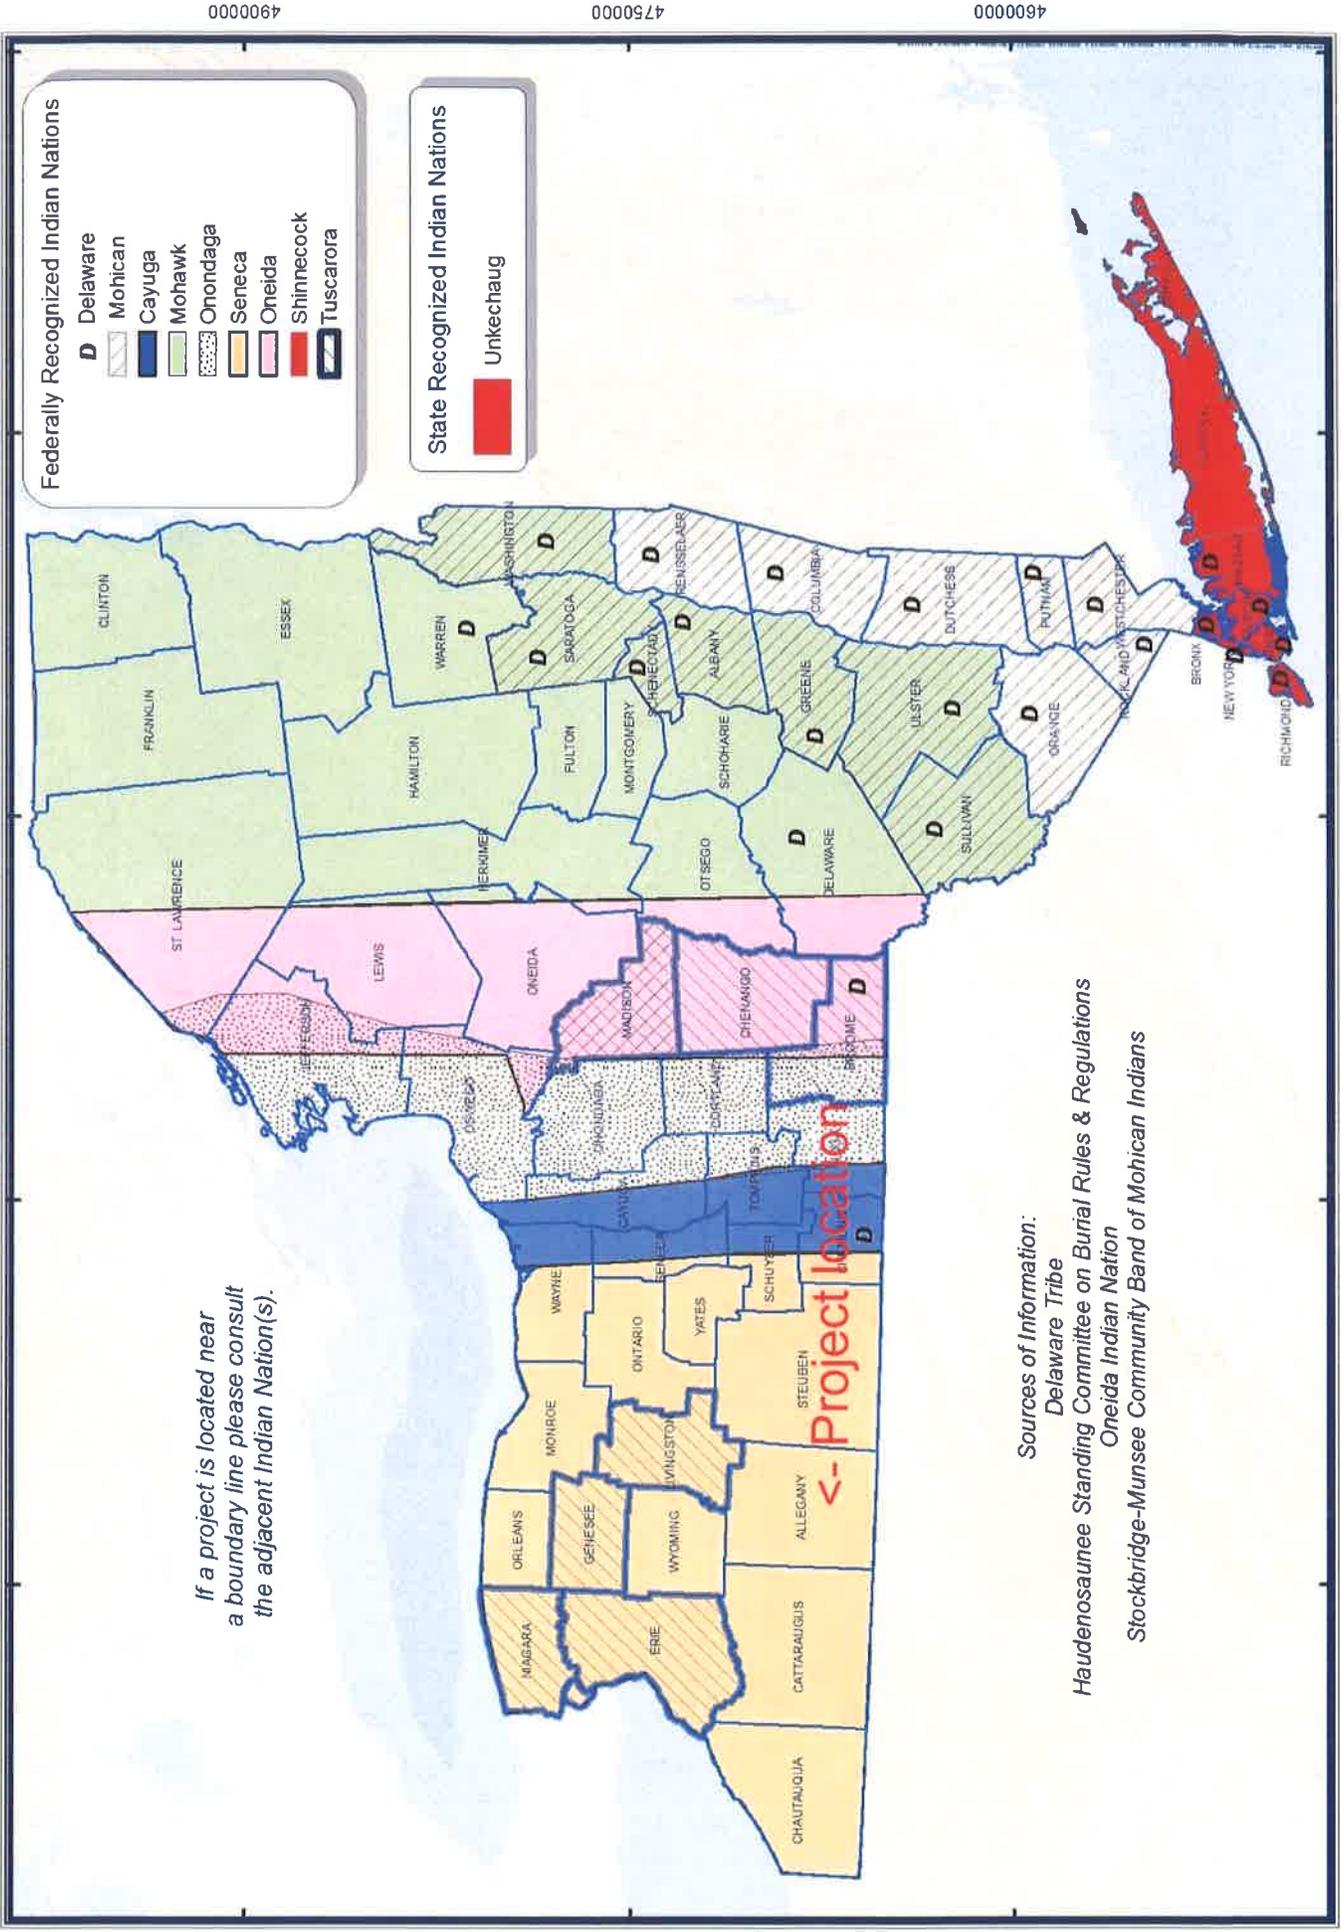

Percent of map unit: 10 percent
Landform: Terraces, valley trains
Landform position (two-dimensional): Summit
Landform position (three-dimensional): Tread
Down-slope shape: Convex
Across-slope shape: Convex
Hydric soil rating: No

Tioga, occasionally flooded

Percent of map unit: 5 percent
Landform: Flood plains
Landform position (two-dimensional): Summit
Landform position (three-dimensional): Tread, rise
Down-slope shape: Convex
Across-slope shape: Convex

1. NYSDEC List of Wild, Scenic and Recreational Rivers & Critical Environmental Areas

1

NYSDEC LIST OF WILD, SCENIC AND RECREATIONAL RIVERS & CRITICAL ENVIRONMENTAL AREAS

Wild, Scenic and Recreational Rivers

Wild Rivers

1. Cedar River: (a) Approximately seven miles from the southwest boundary of lot 82, Township 17, Totten and Crossfield's Purchase to the Hamilton County line; and
(b) Approximately seven and three-tenths miles from the outlet of Cedar Lakes to a point where a road crosses the river approximately one and one-half miles upstream of Cedar River flow.
2. Cold River: Approximately fourteen miles from the Duck Hole to the confluence with the Raquette River and the entire three-mile length of Ouluska Pass Brook.
3. Hudson River: Approximately ten and one-half miles from the confluence of the Cedar River to the confluence with the Boreas River.
4. Indian River: Approximately thirteen miles from Brook Trout lake to the confluence with the South Branch of the Moose River.
5. Kunjamuk River: Approximately eight miles from the outlet of South Pond to a fish barrier dam near the southwest boundary of Lot 9, Township 31, Gorton Tract.
6. Opalescent River: Approximately eleven miles from Flowed Lands to the confluence with the Hudson River.
7. Oswegatchie River, Main Branch: Approximately eighteen and one-half miles from the Partlow Mill Dam to the southernmost boundary between private and state land at Inlet.
8. Oswegatchie River, Middle Branch: Approximately fourteen and one-half miles from the north boundary of Lot 27, Watson's East Triangle to a point one mile downstream of the confluence with Wolf Creek.
9. Piseco Outlet: Approximately four and one fifth miles from a point one-half mile east of the Route 10 bridge crossing to the confluence with the West Branch of the Sacandaga River.
10. Sacandaga River, East Branch: Approximately eleven and one-half miles from Botheration Pond to a point one-half mile above the confluence with Cook Brook.
11. Sacandaga River, West Branch: (a) Approximately seven miles from the confluence of the Piseco Lake outlet to the confluence with Dugway Creek;
(b) Approximately nine miles from the source near Silver Lake Mountain to the Silver Lake wilderness boundary near Route 10; and
(c) Approximately two and seven-tenths miles from the confluence with Cow Creek to the confluence with Piseco outlet.
12. West Canada Creek: Approximately eight miles from Mud Lake to the Old Mitchell dam site.
13. West Canada Creek, South Branch: Approximately five and nine-tenths miles from the headwaters near T-Lake Falls to a footbridge crossing located approximately one mile upstream of the Floe.

Scenic Rivers

1. Ampersand Brook: Approximately eight miles from Ampersand Pond to the confluence with the Raquette River.
2. Ausable River: Approximately nine miles from Marcy swamp to St. Hubert's.
3. Black River: Approximately seven and eight-tenths miles from the point where Farr Road crosses the river to the point where the river intersects the Adirondack Park boundary.
4. Blue Mountain Stream: Approximately nine miles from the outlet of Clear Pond to the confluence with Pleasant Lake stream.

5. Bog River: Approximately seven and three-tenths miles from the dam below Hitchens Pond to Big Tupper Lake.
6. Boreas River: Approximately eleven and one-half miles from Cheney Pond to the confluence with the Hudson River.
7. Bouquet River: (a) Approximately six miles of the North Fork from the headwaters on Dial Mountain to the bridge on Route 73; and
(b) Approximately five and one-half miles of the South Fork from the headwaters to the bridge on Route 73.
8. Carmens River: (a) Approximately two and one-quarter miles from its headwaters at the north boundary of Cathedral Pines Park (formerly Camp Wilderness), Suffolk County, southerly to its intersection with the southern boundary of Camp Sobaco (Girl Scout Camp);
(b) Approximately two and one-half miles from Yaphank Avenue, Suffolk County, southerly to the Concrete Wing Dam in Southhaven Park; and
(c) Approximately two and one-half miles from the south side of Sunrise Highway, Suffolk County, southerly to the mouth of the river (a line between Long Point and Sandy Point) at its confluence with Great South Bay.
9. Cedar River: (a) Approximately five miles from the Hamilton County line to the confluence with the Hudson River; and
(b) Approximately ten miles from a point where a road crosses the river one and one-half miles pstream of Cedar River flow to a point where a southerly extension of the northeast state land boundary of Lot 96, Township 33, Totten and Crossfield's Purchase, would intersect the river.
10. Deer River: Approximately six and two-tenths miles from the outlet of Deer River flow to a point where the river intersects the Adirondack Park boundary.
11. East Canada Creek: Approximately twenty and nine-tenths miles from Powley Place to a point at which the creek intersects the Adirondack Park boundary near Sprite Creek at the southwest corner of Lot 45, Town of Oppenheim, Lott and Low's Patent.
12. Genesee River: Within Letchworth State Park.
13. Grasse River, Middle Branch: Approximately fourteen and one-half miles from the confluence of Blue Mountain stream and Pleasant Lake stream to the confluence of the South Branch of the Grasse River.
14. Grasse River, North Branch: Approximately twentyfive and four-tenths miles from the outlet of Church Pond to a point where the North Branch intersects the Adirondack Park boundary.
15. Grasse River, South Branch: (a) Approximately thirtyfive and two-tenths miles from the outlet of Center Pond to the confluence with the outlet of Allen Pond; and
(b) Approximately three and seven-tenths miles from the most southerly point where the South Branch of the Grasse River intersects the Adirondack Park boundary, north to the confluence with the Middle Branch of the Grasse River.
16. Hudson River: (a) Approximately nine miles from the hamlet of Newcomb to the confluence with the Cedar River; and
(b) Approximately four miles from the confluence with the Boreas River to a point one mile north of the hamlet of North River.
17. Independence River: Approximately twentysix miles from the outlet of Little Independence Pond to the point where the Sperryville Bridge crosses the river.
18. Jordan River: Approximately eighteen miles from the outlet of Marsh Pond to Carry Falls Reservoir.
19. Kuniemuk River: Approximately ten and four-tenths miles from a fish barrier dam near the southwest boundary of Lot 9, Township 31, Gorton Tract, to the confluence with the Sacandaga River.
20. Long Pond Outlet: Approximately sixteen miles from the outlet of Long Pond to the confluence with the West Branch of the St. Regis River.
21. Marion River: Approximately five miles from the outlet of Utowana lake to Raquette Lake.
22. Moose River, Main Branch: Approximately fifteen and four-fifths miles from the confluence of the South and Middle Branches of the Moose River to a point where the Main Branch intersects the Adirondack Park

boundary.

23. Moose River, North Branch: Approximately six miles from the outlet of Big Moose Lake to the confluence with the outlet of Goose Pond.
24. Moose River, South Branch: (a) Approximately eighteen miles from the east boundary of the state land immediately west of Little Moose Lake to the west boundary of the state land near Rock Dam; (b) Approximately six and one-half miles from the east boundary of the state land just north of Woodhull Mountain downstream to the state land boundary near the confluence with the middle branch of the Moose River; and (c) Approximately fourteen and two-fifths miles from the west boundary of state land near Rock Dam to the east boundary of state land north of Woodhull Mountain.
25. Nissequoque River: Approximately one and four-tenths miles from the dam at the outlet of New Mill Pond to the pedestrian bridge south of Route 25/25A including its tributaries and ponds identified as P288 Phillips Millpond, P289 Willow Pond, P290 Upper Vail Pond, P291 Webster Pond, and P291a Lower Vail Pond (on a certain map titled "Official Classifications - Surface Waters of Western Suffolk County," published by the Water Resources Council and prepared by the New York Department of Health) in Suffolk County.
26. Oswegatchie River, Middle Branch: (a) Approximately nine miles from the outlet of Walker Lake to the north boundary of Lot 27, Watson's East Triangle; and (b) Approximately fourteen and two-fifths miles from a point one mile downstream of the confluence with Wolf Creek to a point where the Middle Branch intersects the Adirondack Park boundary at the southeast boundary of Lot 993, Township of Diana, Macomb's Purchase, Great Tract 4.
27. Oswegatchie River, West Branch: Approximately seven miles from the outlet of Buck Pond to a point approximately one mile upstream of Round Pond at the point where a foot and snowmobile bridge crosses the West Branch.
28. Otter Brook: Approximately ten miles from the outlet of Lost Pond to the confluence with the South Branch of the Moose River.
29. Peconic River: (a) Approximately ten and one-half miles from the western boundary of the Red Maple swamp to the Long Island railroad bridge between Connecticut and Edwards Avenue; and (b) Approximately three miles from Middle Country Road (State Route 25) to the confluence with the previously described segment of the Peconic including tributaries T112-5, T112-6 and T112-7.
30. Raquette River: (a) Approximately twenty miles from the outlet of Long Lake to the confluence with a small stream from the northeast, located approximately one mile downstream from Trombley Landing; and (b) Approximately thirteen and eight-tenths miles from the confluence with Dead Creek to a point where the river intersects the north boundary of Lot 1, Township 5, Tannery Lot near Carry Falls Reservoir.
31. Red River: Approximately nine and seven-tenths miles from the headwaters of the river to the confluence with the South Branch of the Moose River.
32. Rock River: Approximately six and nine-tenths miles from the O'Neil flow road crossing to the confluence with the Cedar River.
33. Round Lake Outlet: Approximately two and seven-tenths miles from the outlet of Round Lake to the confluence with the Bog River.
34. St. Regis River, East Branch: Approximately fourteen and one-half miles from a point where Route 30 crosses the East Branch near Meacham Lake, to a point one-half mile upstream from Everton Falls.
35. St. Regis River, Main Branch: Approximately fifteen and five-tenths miles from a point where a private road to Bay Pond crosses the Main Branch in Lot 16, Township 17, Macomb's Purchase, Great Tract 1, to the confluence with Balsam Brook.
36. St. Regis River, West Branch: Approximately thirtyfive miles from the outlet of Little Fish Pond to a point one-half mile downstream from the confluence with Fenner Meadow Brook.
37. West Canada Creek: Approximately seventeen miles from a point where the creek intersects that state land boundary approximately two miles upstream of the Old Mitchell Dam site, to the Route 8 bridge crossing

near Nobleboro.

38. West Stoney Creek: Approximately seven and seven-tenths miles from the Tannery Road crossing to the confluence with Hatch Brook.

Recreational Rivers

1. Ausable River, East Branch: Approximately twenty-eight and three-tenths miles from St. Huberts to the confluence with the West Branch.
2. Ausable River, Main Branch: Approximately twenty-two miles from the confluence of the East and West Branches of the Ausable River to Lake Champlain.
3. Ausable River, West Branch: (a) Approximately five miles from the state boundary along the River Road east of Big Cherry Patch Pond downstream to the state boundary immediately west of High Falls; and (b) Approximately twenty-nine and one-half miles from the headwaters of the West Branch near Heart Lake to the confluence with the East Branch.
4. Black River: Approximately six and three-fifths miles from the outlet of North Lake to a point where Farr Road crosses the river.
5. Bouquet River: Approximately forty-seven and seven-tenths miles from the confluence with the North Fork of the Bouquet River to Lake Champlain.
6. Carmens River: (a) Approximately two miles from its intersection with the southern boundary of Camp Sobaco (Girl Scout Camp), southerly to Yaphank Avenue, Suffolk County; and (b) Approximately one mile southerly from the Concrete Wing Dam in Southaven Park, Suffolk County, to Sunrise highway.
7. Cedar River: Approximately eleven miles from a point at which a southerly extension of the northeast state land boundary parallel to the southwest boundary of Lot 96, Township 33, Totten and Crossfield's Purchase would intersect the river to the southwest boundary of Lot 82, Township 17, Totten and Crossfield's Purchase.
8. Connetquot River: Approximately five and three-fourths miles from Johnson Avenue, Suffolk County, south to the Sunrise highway.
9. Fall Creek: Approximately 1.8 miles from the southern boundary of Cayuga Lake to the west face of the foot bridge running across Fall Creek, which foot bridge is located between Thurston Avenue on the west and Beebe Lake on the east (in the City of Ithaca, Tompkins County).
10. Grasse River, South Branch: Approximately five and one-fifth miles from the confluence with the outlet of Allen Pond to the most southerly point where the South Branch intersects the Adirondack Park boundary.
11. Hudson River: (a) Approximately twelve and seven-tenths miles from the confluence with the Opalescent River to a point where Route 28N crosses the Hudson River at Newcomb; (b) Approximately forty-five and nine-tenths miles from a point one mile north of North River to the confluence with the Sacandaga River.
12. Independence River: Approximately one-half mile from a point where the Sperryville bridge crosses the river to a point where the river intersects the Adirondack Park boundary.
13. Indian River: Approximately eight and three-tenths miles from the outlet of Indian Lake to the confluence with the Hudson River.
14. Moose River, Middle Branch: Approximately thirteen and four-tenths miles from the confluence with the North Branch of the Moose River to the confluence with the South Branch of the Moose River.
15. Moose River, North Branch: Approximately thirteen miles from the confluence with the outlet of Goose Pond to the confluence with the Middle Branch of the Moose River.
16. Nissequogue River: (a) Approximately one and four-tenths miles from State Route 347 to the dam at the outlet of New Mill Pond including its tributaries identified as P292-1 to Brooksite Drive and two unnamed tributaries P292-2 and P292-3; and (b) Approximately five miles from the pedestrian walkway and dam at the outlet of Phillips Millpond to its

confluence with Long Island Sound including its tributaries and ponds connected therewith [specifically described as T-62 on a certain map entitled "Official Classifications - Surface Waters of Western Suffolk County," prepared by the New York State Department of Health and published by the Water Resources Council].

17. Oswegatchie River, Main Branch: Approximately two and three-tenths miles from the southernmost boundary between private and state land at Inlet to Wanakena.
18. Oswegatchie River, West Branch: Approximately six and one-tenth miles from a point approximately one mile upstream of Round Pond at the point where a foot and snowmobile bridge crosses the West Branch to a point where the river intersects the Adirondack Park boundary.
19. Peconic River: (a) Approximately five and one-half miles from the Long Island railroad bridge between Connecticut and Edwards Avenue to Grangabel Park dam in Riverhead;
(b) Approximately two miles of the Little River (tributary T112-2) from and including Wildwood Lake to its confluence with the Peconic River.
20. Ramapo River: Approximately three and one-half miles from the Orange County line to the site of an abandoned power dam in the hamlet of Ramapo.
21. Raquette River: (a) Approximately twenty-two miles from the outlet of Raquette Lake to the outlet of Long Lake; and
(b) Approximately seventeen miles from the confluence of the Raquette River and a small stream from the northeast, at a point approximately one mile downstream from Trombley Landing to the confluence with Dead Creek.
22. Rock River: Approximately one and one-fifth miles from the outlet of Lake Durant to the O'Neil flow road crossing.
23. St. Regis River, East Branch: Approximately six and one-tenth miles from a point one-half mile upstream of Everton Falls to the confluence with the Main Branch of the St. Regis River.
24. St. Regis River, Main Branch: (a) Approximately seven miles from the St. Regis Church to a point where a private road to Bay Pond crosses the Main Branch in Lot 16, Township 17, Macomb's Purchase, Great Tract 1; and
(b) Approximately eighteen miles from the confluence with Balsam Brook to a point at which the river intersects the Adirondack Park boundary.
25. St. Regis River, West Branch: Approximately five and one-half miles from a point one-half mile downstream of the confluence with Fenner Meadow Brook to a point where the West Branch intersects the Adirondack Park boundary.
26. Sacandaga River, East Branch: Approximately fourteen miles from a point approximately one-half mile above Cook Brook to the confluence with the Main Branch of the Sacandaga River.
27. Sacandaga River, Main Branch: Approximately thirty-one miles from the outlet of Lake Pleasant to the inlet of Great Sacandaga Lake.
28. Sacandaga River, West Branch: (a) Approximately ten and three-fifths miles from the Silver Lake wilderness boundary near the most upstream Route 10 bridge crossing to the confluence with Cow Creek; and
(b) Approximately seven and two-tenths miles from the confluence of Dugway Creek to the confluence with the Main Branch of the Sacandaga River.
29. Salmon River: Approximately twelve and three-tenths miles from the outlet of Elbow Ponds to the point where the river intersects the Adirondack Park Boundary.
30. Saranac River, Main Branch: Approximately sixty and two-fifths miles from the outlet of Upper Saranac Lake to the point where the river intersects the Adirondack Park boundary.
31. Schroon River: Approximately sixty-six and seven-tenths miles from the outlet of the former Dead Water Pond to the confluence with the Hudson River.
32. Shawangunk Kill River: From the border of Ulster and Orange Counties to its confluence with the Wallkill River.

33. West Canada Creek: Approximately eleven miles from the Route 8 bridge crossing near Nobleboro to the Harvey Road bridge crossing.
34. West Canada Creek, South Branch: Approximately nine and seven-tenths miles from the footbridge crossing one mile upstream of the Floe to the confluence with the Main Branch of the West Canada Creek.
35. West Stony Creek: (a) Approximately six miles from the Persch Road crossing (to Tannery Road Crossing); and
(b) Approximately two and seven-tenths miles from the confluence with Hatch Brook to the confluence with the Main Branch of the Sacandaga River.

Environmental
Conservation

Critical Environmental Areas

CEA's

Local agencies may designate specific geographic areas within their boundaries as "Critical Environmental Areas" (CEAs). State agencies may also designate geographic areas they own, manage or regulate.

Contact the designating agency for more information concerning a specific Critical Environmental Area.

To be designated as a CEA, an area must have an exceptional or unique character with respect to one or more of the following:

- a benefit or threat to human health;
- a natural setting (e.g., fish and wildlife habitat, forest and vegetation, open space and areas of important aesthetic or scenic quality);
- agricultural, social, cultural, historic, archaeological, recreational, or educational values; or
- an inherent ecological, geological or hydrological sensitivity to change that may be adversely affected by any change.

Following designation, the potential impact of any Type I or Unlisted Action on the environmental characteristics of the CEA is a relevant area of environmental concern and must be evaluated in the determination of significance prepared pursuant to Section 617.7 of SEQR.

Where available, a link to a map of the Critical Environmental Area is provided. If a county is not listed below, there are presently no Critical Environmental Areas in that county.
